A commitment to resolve schooling capacity issues before the district plan is approved.

Reasons:
<p>We oppose the provision due to the lack of clarity around future schooling provision.</p> <p>Plimmerton school currently has approximately 1800 households resulting in a current school roll of 500. Medium density housing combined with other proposed developments in North Porirua will generate more students that the school site has capacity for.</p> <p>Traffic congestion is a major health and safety issue for the school with only two access points to the school (one road, one pedestrian) on the same side. The school is bordered by the rail corridor and housing on the other three sides. An increase in student numbers would add to an already dangerous situation.</p> <p>The school site doesn't have land for additional classrooms. Under the draft district plan the bulk of land that is not already used for buildings has been identified as a significant natural area or a flood hazard for ponding. The site is close to capacity with the students we currently have.</p>
