Όλοι οι λαχνοί περιγράφονται προσεκτικά και πωλούνται ως γνήσιοι και αυθεντικοί εκτός αν περιγράφονται άλλως. Ο αγοραστής μπορεί να απορρίψει το λαχνό και να τον επιστρέψει εντός 7 ημερών (ημερομηνία σφραγίδας ταχυδρομείου) από την λήξη της δημοπρασίας, αν αποδείξει ότι δεν είναι γνήσιος ή ότι περιγράφηκε λανθασμένα. Οι λαχνοί πρέπει να επιστρέφονται όπως παραλήφθηκαν αρχικά, χωρίς καμία διαφοροποίηση. Λαχνοί που εξετάστηκαν προηγουμένως από τους υποψηφίους αγοραστές δεν επιστρέφονται. Επίσης δεν επιστρέφονται λαχνοί που αγοράστηκαν στην Αίθουσα μετά την έξοδο των αγοραστών από αυτή. Οι αγοραστές δεν έχουν το δικαίωμα επιστροφής μικτών λαχνών, συλλογών, λαχνών που έχουν ελαττώματα σε μικροαξίες, καθώς και φωτογραφημένων στον κατάλογο λαχνών, για ελαττώματα ορατά στη φωτογραφία (κεντράρισμα, περιθώρια, οδόντωση). Όταν η αξία του λαχνού είναι στη σφραγίδα και όχι στο γραμματόσημο, ο λαχνός δεν μπορεί να επιστραφεί για ελάττωμα του γραμματισμού.

Κάθε λαχνός περιέχεται στον πλειοδότη, που προσφέρει την υψηλότερη τιμή. Σε περίπτωση ίσων ταχυδρομικών προσφορών, πλειοδότης θεωρείται αυτός που η προσφορά του έφθασε πρώτη στα Γραφεία μας. Τηλεφωνικές εντολές αγοράς γίνονται δεκτές από γνωστούς πελάτες, πρέπει όμως να επικυρωθούν γραπτώς.

Πριν από την έναρξη της πώλησεως ή την ημέρα της δημοπρασίας (για γραπτές προσφορές), η Εταιρία έχει το δικαίωμα να αποσύρει λαχνούς, να διαχωρίσει λαχνούς σε δύο ή περισσότερα μέρη ή να συνενώσει δύο ή περισσότερους λαχνούς.

Μεγάλοι λαχνοί μπορεί να μην μεταφερθούν για viewing στην Αθήνα ή να μεταφερθούν κατ'επιλογή. Viewing λαχνών, που δεν μεταφέρονται στην Αθήνα, μπορεί να γίνει στα γραφεία στη Θεσσαλονίκη.

Προσφορές γίνονται δεκτές έως 2 ώρες πριν από την έναρξη της δημοπρασίας.

Η πληρωμή πρέπει να γίνεται αμέσως μετά το τέλος της δημοπρασίας στην Αίθουσα ή εντός 10 ημερών από την παραλαβή των λαχνών ή του τιμολογίου (για πελάτες Εξωτερικού). Σε αγοραστές εντός Ελλάδος οι λαχνοί αποστέλλονται επί αντικαταβολή και σε γνωστούς πελάτες χωρίς προπληρωμή, για πληρωμή αμέσως μετά την παραλαβή των λαχνών. Αν η πληρωμή καθυστερήσει πέραν των 10 ημερών, η Εταιρία διατηρεί το δικαίωμα να επιβαρύνει το λογαριασμό με το νόμιμο επιτόκιο. Η κορύπτητα των λαχνών παραμένει στον πωλητή, μέχρις ότου αποπληρωθεί ο λογαριασμός. Συμμετοχή αγοραστή στη δημοπρασία μπορεί να αποκλεισθεί, αν κατά την κρίση του πωλητού, ο αγοραστής δεν εκπληρώνει τους όρους της καλής πίστεως.

Η ταχυδρόμηση των λαχνών ή του τιμολογίου γίνεται στην διεύθυνση, που φαίνεται στο έντυπο προσφορών. Τα έξοδα αποστολής βαρύνουν τον αγοραστή. Η απόδειξη παραλαβής "Συστημένου" του Ταχυδρομείου αποτελεί για την Εταιρία και απόδειξη παραλαβής του υλικού από τον αγοραστή.

Στην τιμή καταναλώσεως προστίθεται ποσοστό 18% για προμήθειά μας και επί πλέον ο αναλογών ΦΠΑ επί της προμήθειάς μας. Όλες οι τιμές στον κατάλογο είναι σε ΕΥΡΩ.

Αποίλητοι λαχνοί με τιμή εκκίνησης "OFFER" δεν διατίθενται προς πώληση μετά τη λήξη της δημοπρασίας.

Η τιμή πώλησης των λαχνών με την ένδειξη "OFFER" ορίζεται από το ποσό της προσφοράς, με κατοχύρωση του λαχνού στην υψηλότερη.

Ο πλειοδότης (είτε βρίσκεται στην Αίθουσα, είτε έχει καταθέσει την προσφορά του μέσω τηλεφώνου/ email) είναι υπεύθυνος για την εξόφληση του τιμολογίου, εκτός αν έχει συνεννοηθεί γραπτώς ειδάλλως με την Εταιρία.

Οποιοσδήποτε λαμβάνει μέρος στη δημοπρασία είναι γνώστης των προαναφερομένων όρων και τους αποδέχεται πλήρως. Οποιαδήποτε διαφωνία μεταξύ των συμβαλλομένων μερών τίθεται στην κρίση και δικαιοδοσία του αρμοδίου Δικαστηρίου Θεσσαλονίκης.

The highest bidder shall prevail. In case of equal mail bids, the earlier arrived will be considered as successful. Telephone bids are acceptable, but should be confirmed in writing.

Before start selling or the date of the auction the Auctioneer has the right to withdraw any of the lots, to divide it into two or more parts, or to join two or more lots into one.

Large lots may not be available for viewing in Athens unless especially selected. Viewing of those unavailable lots is still possible in our offices in Thessaloniki.

Interest shall be payable by the purchaser on any overdue account. The Auctioneer has a discretion to waive payment of the interest. Title shall remain to A. KARAMITSOS until payment in full is received. Any buyer could be excluded if he is not a person of good faith, according to the Auctioneer's opinion.

The invoices and the lots will be mailed to the address given on the bidding form. Postage and insurance is charged to the buyers. The receipt for "Registered" letter by the Post Office constitutes delivery receipt for the Auctioneer.

A 18% buyer's commission will be added to the "hammer price" for each lot, plus the respective Value Additive Tax (VAT) on our commission. All prices expressed in the catalogue and all bids are in euro, unless otherwise is stated.

Unsold lots with starting price "OFFER" are not available for sale after the end of the auction.

The sale price of lots marked as "OFFER" is defined by the highest offer; highest bid wins the item at said price.

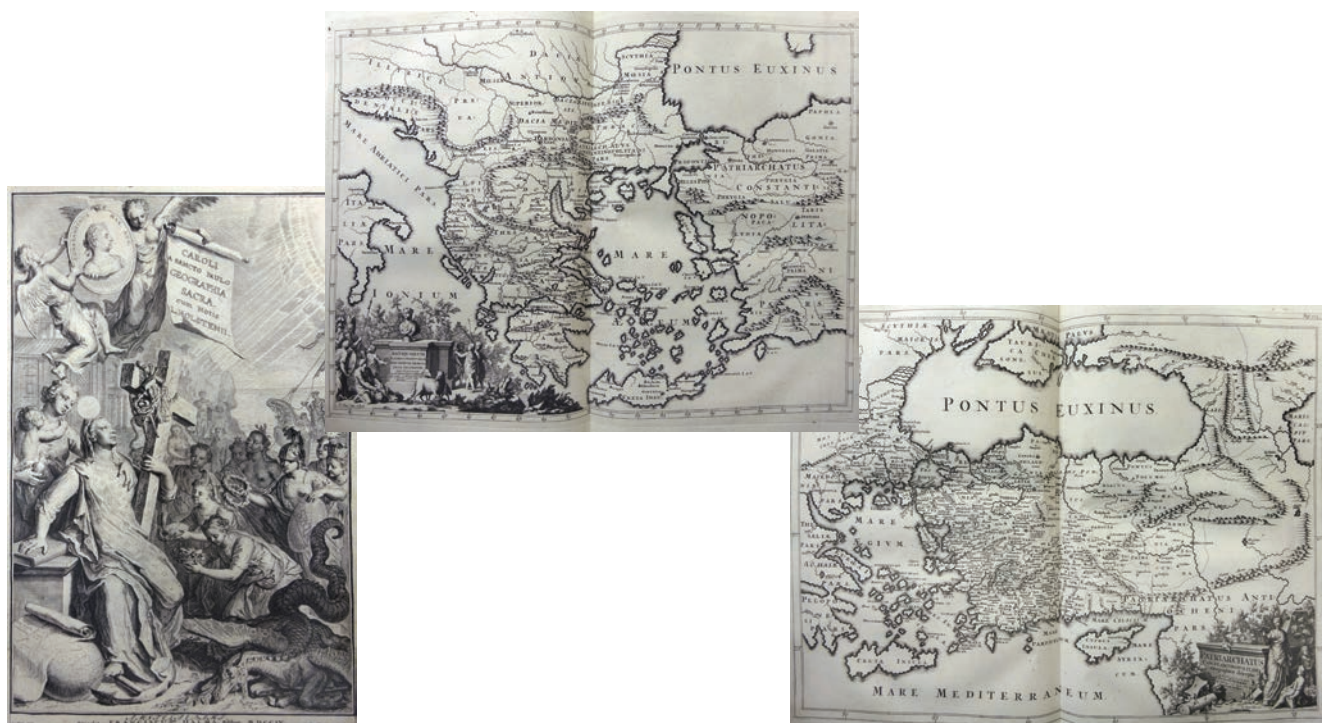

The bidder (either via mail or in the room) is responsible for the invoice's payment, unless otherwise agreed, in writing, with the company.

Anyone who will take part in this Auction is familiar to the conditions of sale and accepts them. Any dispute shall be subject to the jurisdiction of the competent Court in Thessaloniki, Greece.

Maps are engraved by Eland, the best Dutch engraver of its time. Impressions are sharp and clear. The text is a detailed representation of all the Episcopal regions of the Church, covering all Patriarchates. Modern full leather. Ex libris label of Benedictini monks. EXCELLENT condition. Zacharakis 1600, 1601.

Starting Price: 1750 €

Lot. 3002

MOLL H., "Geographia Classica: The Geography of the Ancients...", London, Browne, 1727. 8vo (19x15cm), pp.iv,[2] + 28 copper engraved maps (the map 25, spiritual geography, never printed in this edition). All double page maps (26x18cm) or folded, clean with sharp impression. Mostly Greek interest maps (Zacharakis 2307-2319). Herman Moll (1654-1732) was a famous English cartographer and geographer. His Geographia Classica, first printed in 1712, remained the basic geography throughout the 18th century. This is the last edition published during author's life and from the original copper plates. A classical 18th century Atlas. Minor tear in the fold of a folded map without loss. Contemporary boards rubbed, spine defect. Overall a very good copy.

Starting Price: 580 €

Lot. 3003

[MANUSCRIPT ATLAS] Chianale Thomae, “Geographia”, (Atlas of Modern Geography), 1790-1814, Manuscript Atlas. No place but Italy, c.1790 for the maps. Completion of manuscript in 1814 (dated). 8vo (18x13cm), pp.80, [66] including appendix of maps and 21 (some folded) maps. Ex-libris Chianale (his personal copy). Contemporary binding, spine rubbed, very clean inside, maps fine. Giovanni Thomas Chianale (1770-1823) was an Italian educated cleric and geographer. His elder brother (Giovanni Saverio Chianale), was an Italian engraver, working in Venice and Turin. He was probably in Zatta team also. The current manuscript geography was compiled by Thomas and is accompanied with 21 double page printed maps, all printed in Venice 1790 by Zatta. The maps are depicting mainly Europe, but also a world map as well as maps of Africa, Asia & America are included. The world map is significant as presenting an early correct representation of Australia. The maps were printed to be included in another world geography book. We can assume that Saverio provided the printed maps for the geography of his brother. A unique manuscript Geography and Atlas.

Starting Price: 780 €

Lot. 3004

A classical set of ancient geography maps in a very rare particular edition.

Starting Price: 380 €

Lot. 3005

Bochart Samuel, "Opera omnia - Atlas Geographia Sacra", Lugdunum Batavorum-Leiden, 1707-1712. 5th edition of the most influential work on Sacred Geography, but the second and final edition with all 13 original Bochart's maps. 3 volumes. vol.1: 6 + 63 + 1094 + 91p., vol.2: 1 + 888 + 79p., vol.3: 3 + 44 + 1224 + 30p. Complete with 13 maps, some double-page or folded. Contemporary full leather, edges of spines restored, occasional light spotting on text, minor marginal worming in the beginning of vol.3. All maps fine with sharp impression. Bochart's sacred geography is the first systematic effort to describe in details the ancient geography of the Bible, by attempting to identify the actual position of biblical places. Bochart's original manuscript work (1630's) was accompanied with 13 original maps, drawn by himself (now in BNF). The first edition (Cannes 1646), financed by Bochart, included only 4 of the maps due to high printing costs. After the success of this work, all maps were finally included in the 4th edition (1692). The same map plates were used in the current and last edition. A very influential and rare Atlas.

Starting Price: 1600 €

Very early French copper engraved map (18x14cm) of Greece by Tassin, published only once at his “Cartes de la Geographie Royale”, the very first French Atlas containing these size map of Greece. Lot. 3010

Alberti Sebastian, Peeters J., “Piazza di Sta Maura, Esvoi Borghi Assediata dall Armi della Serenis ma Republica de Venetia Rezza li 7 Agosto 1684 / Dissegno delineato dal Ingegnero ALBERTI”, J. Peeters, Antwerp, 1686. Just after conquering Lefkada, Morosini ordered an accurate new map of the island for military and administrative reasons. A team under the leadership of the engineer Sebastian Alberti and under the supervision of the new governor of the island Bembo, will undertake the necessary systematic land survey measurements resulting in the first accurate mapping of the island. This scarce Lefkada plan published by Peeters clearly mention on its title the engineer Sebastian Alberti as the designer of the map proving his crucial role in the Venetian cartographic operations of this island.

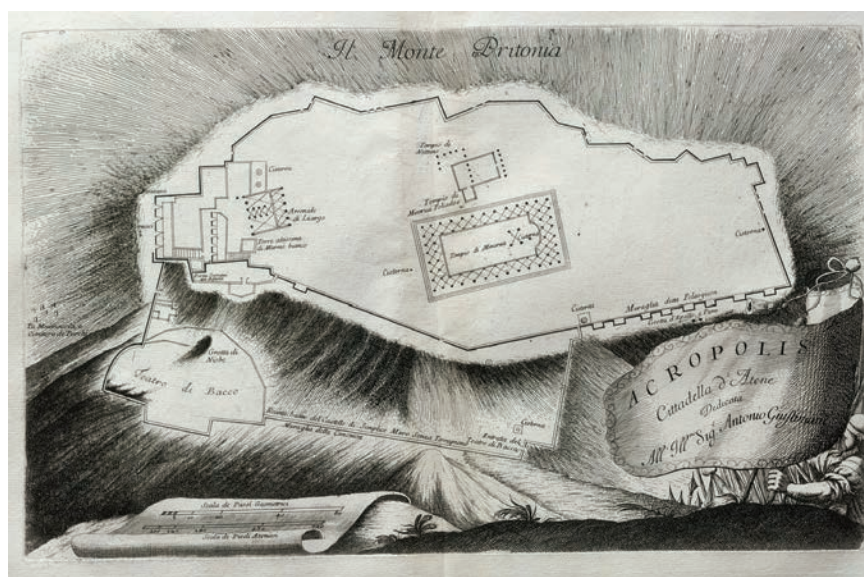

Starting Price: 100 €

Lot. 3011

[Verneda Giacomo / Count di San Felice], Coronelli V. M. (ed.), “Pianta della Città e Fortezza d’Atene”, (42x27cm). Drawn in Athens in late 1687 and printed in Venice in 1689. The very first proof state. In late September 1687, the Venetian army conquered Athens, after the bombardment of Parthenon. The head of the artillery corps, San Felice, ordered a skilled engineer, Verneda, to draw an accurate map of Athens and its environs. The map was soon ready and sent immediately to Venice by Morosini to inform the Senate about the monuments & physical landscape of his glorious new conquest. In a letter/answer written in Venice (12/1687), the Senate thanks Morosini for the map of San Felice, that had just been received (Chatziaslani, Morosini in Athens, E.I.E. 2010). Verneda seems to continue his works in Athens during the winter of 1687/88, adding to his map the position of the Venetian mercenaries around Athens during the winter. Based on that map, Coronelli published probably the first accurate map of the city of Athens based on systematic land survey measurements. This is the very first issue of the map. It has been initially planned for publication in the “Atlante farnese” (as an other surviving proof suggests), but finally has been published only in the very rare “Theatro de la Cita”. Unknown to all earlier researchers of Athens maps (Laborde, Michaelis etc). Extremely rare.

Starting Price: 680 €

Lot. 3012

San Felipe, [Coronelli], “Acropolis / Citadella d’Atene / Dedicata... Antonio Giustinium”. Venice 1688. San Felipe was the chief engineer of the Venetian army under the command of Morosini that bombarded and occupied Acropolis. According the Venetian Senate records, just after the conquest of Athens in late September 1687, Morosini has ordered the design of a map of the famous Acropolis. The map was drawn by San Felice and its purpose was to provide a general image of the famous ancient Acropolis to the Venetian authorities. A most elaborate map has been produced immediately after by Verneda during the winter 1687/8, covering also the lower city. The Acropolis map (42x27cm) has been copper engraved by Coronelli, here as a proof and included only in the very rare “Theatri de la Cita”. Not in Zacharakis. Fine condition, first accurate particular plan of Acropolis of Athens. Extremely rare.

Starting Price: 390 €

Lot. 3013

Coronelli V. M., "Antica, e moderna citta d'Atene, dedicate dal P. Coronelli", Venice 1689-90. Big (62x46cm) copper engraved map of Athens with the plan of the city and the immediate surrounding areas (today the center of the city). The map has been drawn by the Capuchin monks in 1672 and published firstly in smaller scale as part of a book (Paris 1675). This enlarged and enriched edition has been made by Coronelli just after the conquest of Athens. Very rare edition of the assumed first map of Athens. Fine condition. Very rare.

Starting Price: 480 €

Lot. 3014

[Vandeli D], "Grecia Propria", Verona 1741. Copper engraved map (33x22cm) of southern Greece from the book "Polibio, Storico Greco", publ. by Ramanzini in Verona. Fine condition, original folds. Zacharakis entry for this rare map is 891a under Cellarius. However, we suggest that this is newly drawn map by the Italian cartographer Domenico Vandeli (1691-1754) that acted in Verona this period and cooperated with Ramanzini for the completion of the Polybius history edition of Verona. Very rare.

Starting Price: 170 €

Lot. 3015

Original folds, cut in the neatline in the upper left (prob. to be included in a 8vo Atlas). This map has been firstly published in De Fer's "L'Atlas curieux" between 1700-1705 (Zacharakis 1483). However, this map bears clearly the date 1754. This is a very rare version, published by Dannet Guillaume (the son in law of De Fer) almost a generation after the first issue and included in the rare Atlas of Dannet with plate number 106. Not in Zacharakis (this edition). Very Rare

Schutz Carl, “Kriegstheater oder Graenzkarte Oesterreichs, Russlands, und der Turkey, enthaltend das Koenisreich Ungarn... einen theil Griechenland und der Archipelagus...”, Vienna - Artaria, 1788. Impressive (73x50cm) very rare, separately printed in two sheets, copper engraved map of the theater of war between Austria, Russia and Turkey in 1788. The cartographic frame extends from Adriatic to the Black Sea, including all central and northern Greece and Northern Aegean. The map has been engraved by Muller, one of the best contemporary Austrian engravers (10 years later he has engraved the famous Rigas Ferraios – Ρήγας Φερραίος map of Greece). It is also a very early publication (the third) by Artaria, the oldest publishing house in Austria. Schutz Carl (1745-1800), a little known Austrian cartographer of the 18th century, produced less than 10 maps around 1780-1790, all separately printed and never included in any Atlas. Consequently, very few of his maps have survived and considered now very rare. Fine condition. Not in Zacharakis Very Rare.

Starting Price: 580 €

Lot. 3019

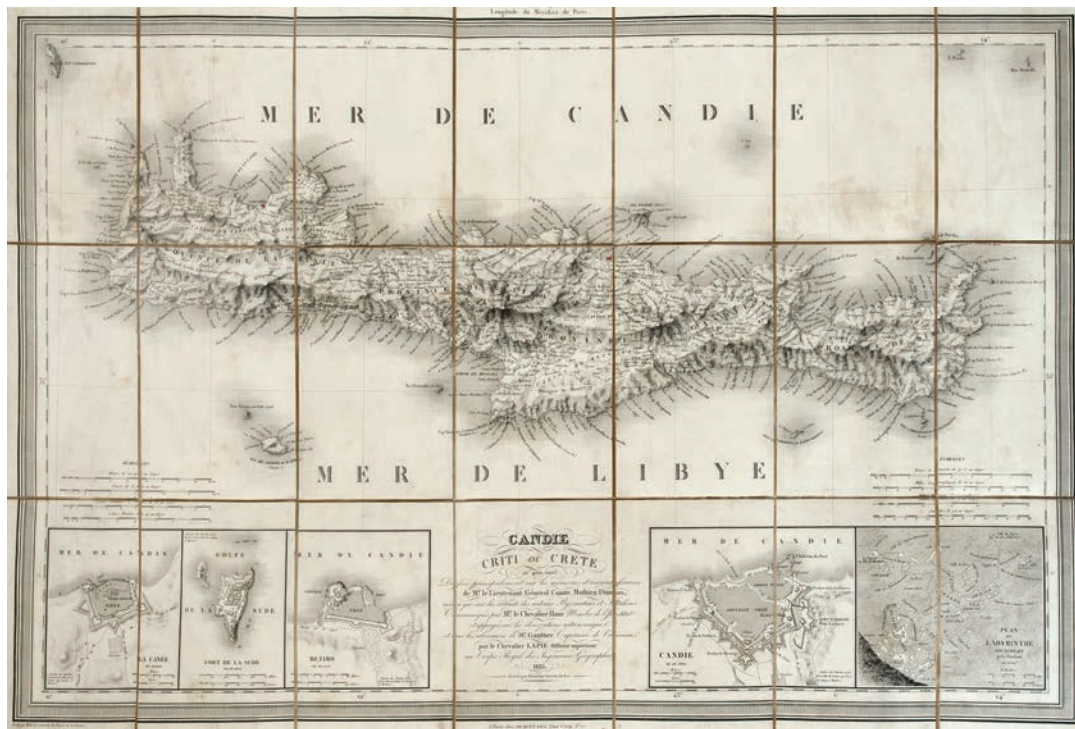

Gussefeld F. L., “Graeciae Antiquae Descriptio”, Leipzig 1796. Extremely rare copper engraved map (32x27cm) of Ancient Greece, engraved by Frentzel, in Leipzig. Original folds, some spotting, a tiny hole along fold, but overall a good copy. The map bears the inscription: “Designata a F.L.G 1796” (F.L.G.=Franz Ludwig Gussefeld). Only three issues have been published, between 1795 and 1798 with the current map included only in the 1797 issue. The very short printing period and the final output in pamphlets, increase vastly the rarity of the current map. NOT in Zacharakis. Only one known copy in public institutions. Extremely Rare. **Starting Price: 280 €**

Lot. 3020

Danielow Ivan, “Das Osmanische Reich in Europa – L’Empire Ottoman en Europe, Vienna, Mollo, 1813. Wall copper engraved map dim.111x106cm, printed separately in six sheets & attached on linen. A leather backed period case of the map included. The rare First edition of 1813 (another more common edition followed in 1820). Danielow’s 1813 map is the first semi-topographical map of the Balkan Peninsula and a significant cartographic improvement comparing to the 1805 Chanlaire’s or the 1811 Palma’s map. Danielow, a military officer and engineer was a close companion of the Austrian General Prince Schwarzenberg, who had contributed to the von Weiss’s map as a reference in this map clarifies. Danielow accompanied Prince Schwarzenberg in Russia in 1808 and later, accessing valuable cartographic material from the Russians. The Austrian & France alliances, gave him also the opportunity to access the French cartographic material. All this valuable information was finally blended in the current publication in late 1813, when the Napoleonic wars were evidently towards their end. A very important map for the mapping history of the Balkan Peninsula and Greece. Very Rare.

Starting Price: 650 €

Lot. 3021

Based on French military semi triangulations for the land (map referred to officers Dumas and Hase), accurate sea charting surveys of the Hydrographer Capitaine Gautier for the island coastlines and several traveller observations for place names. Very important, probably the first scientific and accurate map of Crete, a reference for the mapping of Crete up to the very end of 19th century. Published in a critical year (1825) for the Greek revolution, especially for Crete island. In original case with wear on extremities. Very light spotting. Extremely rare.

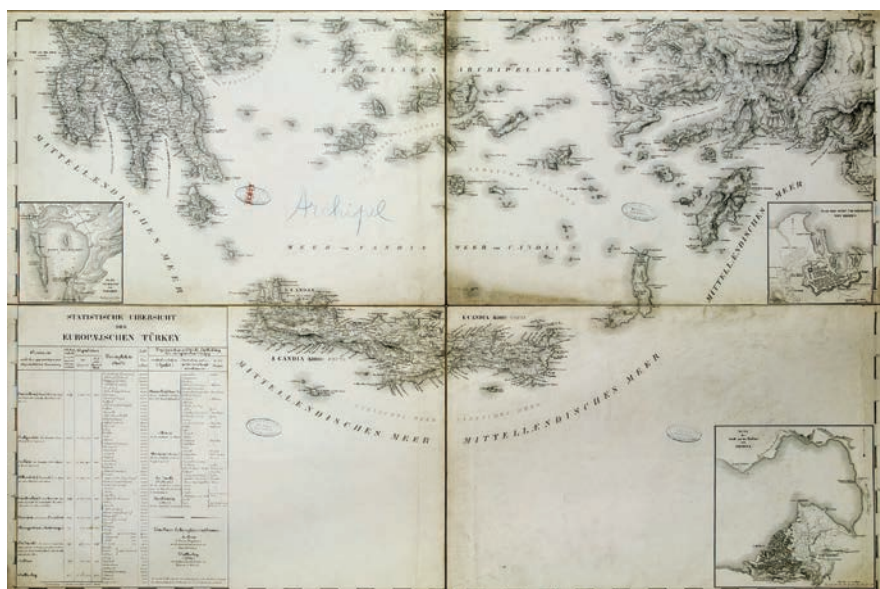

Starting Price: 700 €

Lot. 3022

[Franz von WEISS], Austrian Military General Staff / French Military General Staff. Wall (198x86) lithographed map of Northern Greece, covering from the Adriatic to the Black sea, published by Franz von WEISS in “Carte der Europaeischen Turkey...”, Vienna, 1829. According to the stamps & inscriptions on map, the map belonged and used by the French Military General Staff (cartographic service). The fact that Weiss’s map was the most accurate map of Peloponnesus during the French expedition in the Morea in 1829-1831, could suggest that it could be used as a base map by the French expedition staff. The map is in 6 uncut sheets joined together and has signs of use probably in the field. Rare.

First and only edition. Contemporary full leather binding, with elaborated iron clips of the time, tide and inside clean, a fine copy. Complete in one volume in 12mo, fully engraved half title, title, 12p.+898p.+36p. With 25 original copper engraved plates, including a map of the Ottoman Empire, a map and a plan of Chios (not in Zacharakis) and several beautiful views of towns and people of the Ottoman Empire. All illustrations most probably derived from first hand knowledge as the details in depictions of the Ottomans and the rare scene of Turkish wrestlers suggest. The current book, printed in Germany in the mid 17th century, is considered as one of the first attempts to produce a comprehensive work about Ottoman Empire and its people, in a period that still very few is known about this area. Due to this lack of first hand contemporary information, the editors republished in German all the 16th century works of Busbeck (main source about the Ottomans in Europe till then), adding recent accounts about the Turkish contemporary wars and blending the edition with several other short travel accounts and descriptions not published before, such as Ibrahim Stotschius’s accounts. Only three copies available in all public institutions. Not in Atabey or Blackmer. Extremely rare.

It is unclear whether La Guilletière was a real or an imaginary person, but he is supposed to have travelled in the Ottoman territories in 1669, after the end of his captivity in Algeria. Although Guillet's work became the object of harsh criticism on grounds of its historical inaccuracies, it is considered a very early work, rich in historical information on Sparta, including one of the oldest descriptions of Mani (I. Vingopoulou: <http://eng.travelogues.gr/>). Restoration on title page of 1st volume, lightly sunned. Modern binding: full red calf with decorations in gilt, spine raised bands. Very Rare. [Menologion of Basil II] Menologium Graecorum Jussu Basillii Imperatoris, Urbini 1727. First edition. Complete: 3 volumes in one. Folio (43x30cm), pp.16,227,12 + 2,223,12 + 4,232,14. Half titles, title pages in red and black. Four hundred thirty (430) copper engravings of various religious scenes, depicting accurately the Byzantine miniatures and covering the upper half of each page. The Menologion is the detailed calendar of the Orthodox Church, describing the feasts of the Saints in daily basis. A fine Byzantine Menologion was compiled in Constantinople circa the end of the 10th century, for the personal use of the emperor Basilius II (976-1025). It contained a Synaxarion (a short collection of Saints lives) for liturgical use and 430 miniature paintings prepared by 8 different artists. This unusually rich-illustrated Menologion has never been accomplished, covering only a part of the year feasts. It is now considered as one of the most important testimonies of the Byzantine painting art of the Macedonian Dynasty. The original manuscript survived and from the 17th cent. up to now resides in Vatican Library. Impressed by this fine art piece, Pope Clemes XI gave order (early 18th) to publish it covering all year feasts and reproducing all the Byzantine miniatures. It took more than 15 years to accomplish this task, using the best artists of the time. It has been finally published in 1727, in only 200 copies, all of them given as gifts by the Pope to religious institutions and important personalities. Contemporary vellum over boards, title in red, very clean. A Fine art piece. Extremely rare.

Original Works of Art: Sketches, Watercolours etc.

-- In the late 18th century the interest in Europe for the still unknown Ottoman lands and society was growing. In this context, after 1760s, few European painters visited the Levant producing watercolors (aquarelles) & depicting people of the Ottoman Empire. The demand was high and these aquarelles are considered today very rare. The following two lots (each one containing two original painted aquarelles) were painted by a skilled French painter who has visited the Levant around 1770s-1780s (as the period watermarked papers suggest). The French artist seems to have direct access to the Ottoman Court (as the Ottoman officials detailed paintings confirm), suggesting that the painter was probably a member of or following a diplomatic mission. Within this frame the painter could probably be Hilair, who followed Choiseul Gouffier in the Levant in 1776. The current watercolors come from Sarkis Boghossian (leading French Librarian of the 20th century) private collection --

Η φωτογραφική συλλογή καλύπτει το διάστημα από 5/1/1922 έως 6/12/1922 με τον κύριο όγκο να εντάσσεται στον Αύγουστο του 1922 που συμπίπτει με την εγκατάληψη της επιχείρησης κατάληψης της Άγκυρας και την οπισθοχώρηση των Ελληνικών Στρατευμάτων. Ο φωτογράφος, επίσημος φωτογράφος της XII Μεραρχίας από το 1920, καταγράφει βήμα βήμα την πορεία της Μεραρχίας από τον ποταμό Πουρσάκι κοντά στην Άγκυρα έως την Πάνορμο στα παράλια της Προποντίδας, την αποβίβασή στην Ανατολική Θράκη και την τελική επιστροφή μέσω των σιδηροδρομικών σταθμών Τυρολόης & Αρτίσκοι (Babaeski). Οι περισσότερες φωτογραφίες δεν περιλαμβάνονται στην σχετική έκδοση Μέριτζος Ν., “Η μικρασιατική εκστρατεία. Φωτογραφίες Θεόδωρου Νικολέλη”, Ερωδιός, Εταιρεία Μακεδονικών Σπουδών, 2008.
