Section: ECO - Ecosystems and Indigenous Biodiversity

Sub-section: ECO - Ecosystems and Indigenous Biodiversity

Provision

The SNAs that are covered by this chapter are contained in SCHED7 - Significant Natural Areas. Where the SNA is in an urban environment allotment as defined under s76(4C) of the RMA, further detail of the SNA is set out in SCHED8 - Urban Environment Allotments.

Submission

The SNA 160 marked on 266 Murphys Road is not of significance, the significant indigenous vegetation ends at the boundary line. It is pine, black wattle, gorse with some regeneration manuka, common throughout NZ. It is within my grazing paddock area.

Relief sought

Amend the designation of SNA 160 to end at the boundary of the neighbouring property.
