

Peak Flow Plumbing Backflow Installation Process

Ensuring your drinking water is protected from contamination.

Based on Backflow Installation by Peak Flow Plumbing

Step 1: Contact Peak Flow Plumbing

Reach out to Peak Flow Plumbing to discuss your backflow prevention needs for your residential or commercial property in Colorado Springs, CO.

- Inquire about potential government rebates for backflow prevention.
- Ask about their satisfaction guarantee.

Step 2: Choose the Right Backflow Preventer

Peak Flow Plumbing will help you select the appropriate backflow preventer for your specific property and needs.

Step 3: Professional Installation

Allow their licensed and insured professionals to install the backflow preventer according to all local regulations and industry standards.

- Ensure the installation is handled by experienced and skilled technicians.

Step 4: Ball Valve Installation (Optional)

Consider having ball valves installed alongside your backflow assembly for easier future maintenance and shut-off.

Step 5: Schedule Annual Testing

Arrange for annual backflow testing to ensure your device is functioning correctly and continues to protect your water supply.
