Foreword

The PEFC Council (the Programme for the Endorsement of Forest Certification schemes) is the worldwide organisation promoting sustainable forest management through forest certification and labelling of forest based products. Products with PEFC claim and / or label deliver confidence that raw material originates in sustainably managed forest.

The PEFC Council provides endorsement of national forest certification schemes which are required to comply with the PEFC Council requirements subject to regular evaluations.

The document had been developed in an open, transparent, consultative and consensus based process covering a broad range of stakeholders.

This document cancels and replaces Annex 5 of the PEFC Council Technical Document (PEFC Logo usage rules). For the PEFC Logo users with PEFC Logo licence issued before the publication of the document, a one year transition period applies from the requirements of Annex 5 to those in this document.

The second edition incorporates Amendment No. 1, adopted by the PEFC General Assembly on 12th November 2010. The changes required by the amendment are indicated in the text by a marginal bar and amendment number against the clause, note, figure or part thereof affected.
Introduction

The PEFC logo / label provides information relating to the origin of forest based product in sustainably managed forest and other non controversial sources. Purchasers and potential purchasers can use this information in choosing the product based on environmental, as well as other considerations.

The overall goal of the PEFC logo / label usage is, through communication of accurate and verifiable information that is not misleading, to encourage demand for and supply of those products originating in sustainably managed forests and thereby stimulating the potential for market-driven continuous improvement of the world’s forest resource.

The document is based on the general principles for environmental labels and declarations defined in ISO 14020:2000.
1 Scope

The document covers requirements for users of the PEFC Logo relating to ensure accurate, verifiable, relevant and non misleading usage of the PEFC Logo and related claims.

This document defines the legal protection of the PEFC Logo; rights to use the PEFC Logo; Logo usage categories and the requirements for on- and off-product usage of the PEFC Logo.

NOTE: PEFC endorsed forest certification schemes and chain of custody standards may be found at the PEFC Council website, www.pefc.org.

4 Coverage of the PEFC Logo

The PEFC Logo and related claims only concern the origin of forest based raw material used in the labelled products.
