## 1. Introduction

The *Malaysian Criteria and Indicators for Forest Management Certification* [MC&I(Natural Forest) and MC&I(Forest Plantations)]<sup>1</sup> comprise a set of requirements which represent the environmental, social and economic dimensions to be taken into account by forest owners and managers in managing the natural forests and forest plantations in Malaysia. It is intended for voluntary application and to assist in promoting access to both domestic and international markets in which there is a demand for timber from certified forests.

Certification marks related to the Malaysian Timber Certification Scheme (MTCS)<sup>2</sup> can be fixed to a product to indicate that the product originates from a forest certified to the MC&I. The MTCC Logo is a Trade Mark no. 00011481, which is registered by the Malaysian Timber Certification Council (MTCC), the organisation formed to manage the implementation of the MTCS.

The MTCS has been endorsed by the *Programme for the Endorsement of Forest Certification Schemes*<sup>3</sup> (PEFC) as conforming to its certification standards for forest management and chain of custody for timber products. This endorsement confers mutual recognition with other endorsed PEFC national schemes and provides the mutual recognition framework that establishes MTCC recognition of those endorsed schemes as substantively equivalent to the MTCS. The PEFC's mutual recognition framework enables companies with MTCS certification for their forest management and timber products to use the PEFC Logo and related PEFC claims in their marketing and communications with stakeholders provided that they are a licensed user under the requirements of this document.

This document is designed to provide the authoritative basis for MTCC in managing the use of the PEFC Logo, which is a registered Trade Mark nos. 03000463-469 in Malaysia, and to guide certified organisations and individuals seeking to use the PEFC Logo.

## 2. Objectives

The objective of this document is to set the rules for the use by Malaysian-based operations of the PEFC Logo and its related claims, based on certifications under the MTCS.

The MTCC is the National Governing Body of the PEFC Council in Malaysia, and is authorised to administer and to assure the protection of ownership rights for the usage of the PEFC Logo in Malaysia on the basis of certification under the MTCS as a mutually recognised forest certification scheme under the PEFC system. It is also tasked with ensuring transparent and credible communication of claims connected with PEFC certification to avoid any misunderstanding or miscommunication.

<sup>1</sup> The MC&I(Natural Forest) and MC&I(Forest Plantations), can be accessed at: [www.mtcc.com.my/technical-documents](http://www.mtcc.com.my/technical-documents).

<sup>2</sup> The MTCS comprises the MC&I(Natural Forest) and MC&I(Forest Plantations) and PEFC ST 2002:2013 as the forest management and chain of custody standards respectively; accreditation programmes offered by STANDARDS MALAYSIA for forest management system and product (chain of custody) certification to certification bodies and the independent, third-party certification bodies who have as a component of their scope of accreditation, the capacity to offer certification to the three standards.

### 3. Scope of Document

This document establishes the rules and guidelines for the use of the PEFC Logo and its related claims, and is developed based on the PEFC ST 2001:2008 v2 as well as the PEFC GD 1005:2010 entitled *Issuance of PEFC Logo Use Licenses by the PEFC Council*.

The scope is to specify the:

- Parties that can use the logo (Section 4)
- Process for issuance of logo usage license and logo use rules (Section 5)

### 4. Logo Usage

#### 4.1 User Groups

Three groups of Logo Users are identified. These user groups comprise both certificate holders and also non-certificate holders. MTCC issues PEFC Logo usage licenses in Malaysia on behalf of the PEFC Council to the following user groups:

- Group B: **Forest owners and managers** with PEFC recognised forest management (FM) certificates and all eligible entities participating in a region or group with PEFC recognised certificate.

The following entities are covered by group B:

- holders of a regional certificate;
  - holders of a group certificate (group of forest owners);
  - individual forest owners (as holders of individual certificate or members in regional or group certification);
  - other entities participating in the regional or group forest certification (e.g. contractors)
- Group C: **Forest related industries** (e.g. wood procurement organisations, wood manufacturers and wood processing industries, wood traders, distributors, retailers, etc.) with PEFC recognised chain of custody (CoC) certificate, including sites covered by PEFC recognised CoC certificates.
  - Group D: **Other Users**  
Organisations and other entities other than those classified under PEFC Logo user groups B and C which are using the PEFC Logo off-product for promotional and education purposes.

## **5. Licenses for Logo Usage Rights**

### **5.1 License Arrangements**

#### **5.1.1 General conditions**

Organisations or companies applying for use of the PEFC Logo must:

1. be a legal entity, such as a company, business or society; and,
2. be prepared to sign an agreement i.e. Logo Usage License Agreement that allows the public presentation, on an Internet-based database, of the organisation's, company's or other legal entity's identification data. This data includes:<sup>4</sup>
  - organisation's contact and location details;
  - organisation's certificate number and expiry date (if applicable);
  - certification body's contact details (if applicable); and
  - size of forest management unit and/or the facilities covered by the certificate (if applicable).
3. Holder of multi-site chain of custody certification which central office is located in Malaysia can apply for multi-license covering the whole or part of the scope of the multi-site certification provided that:
  - the central office and the sites are a part of a single legal entity, or
  - the central office and the sites are a part of a single company with a single management and organisational structure.

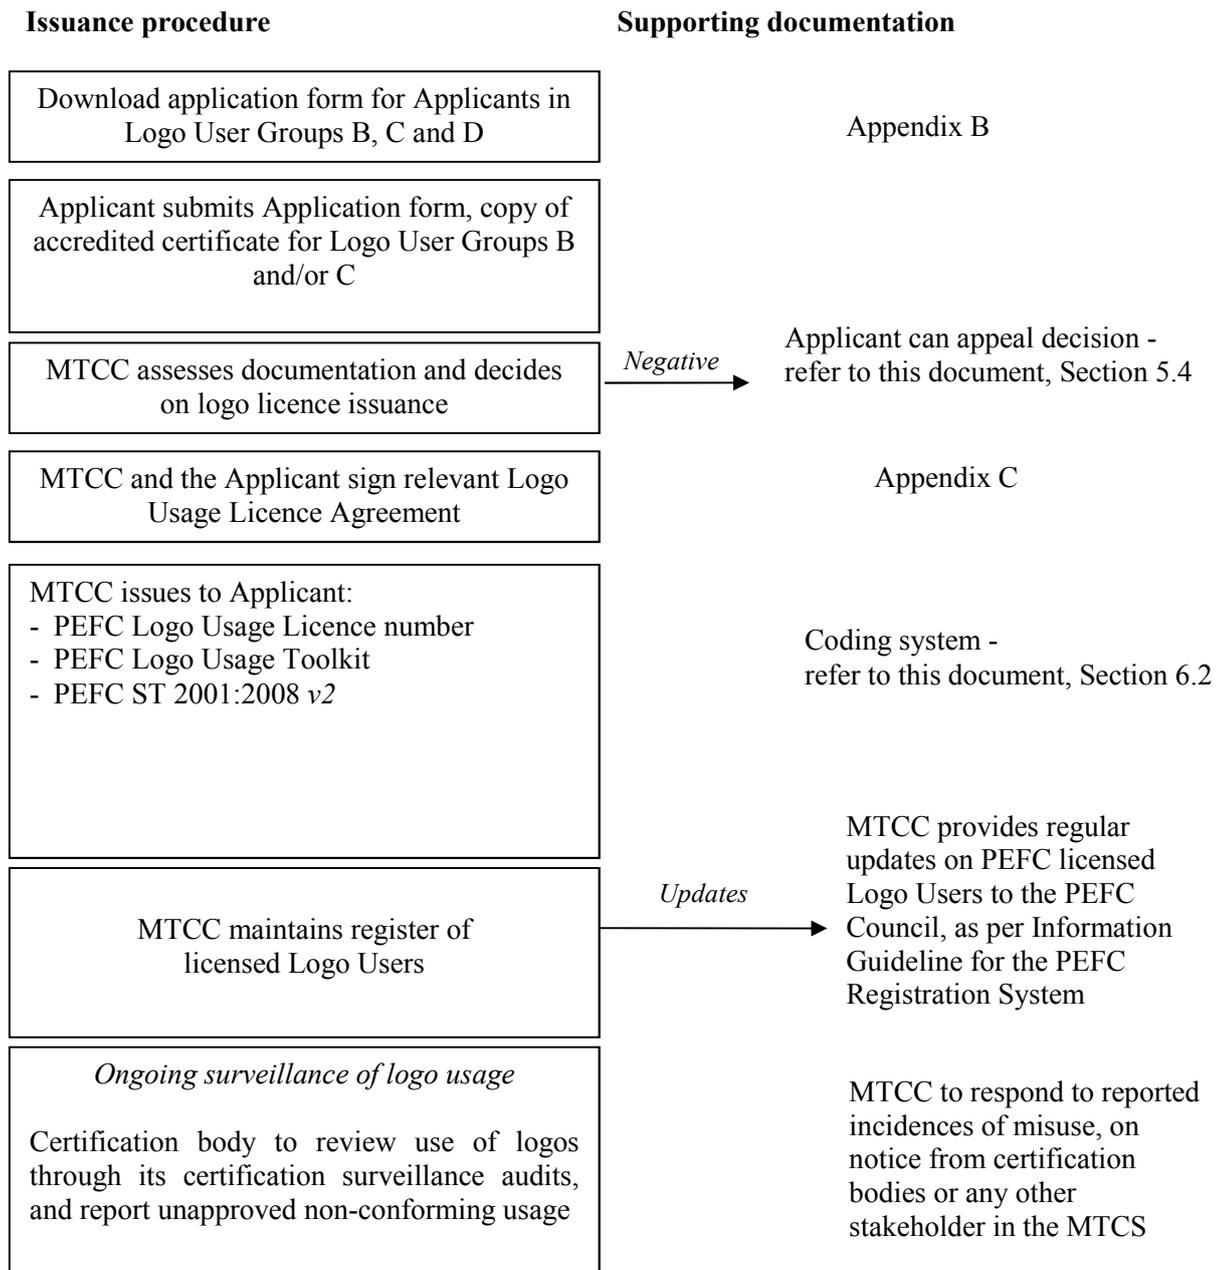

#### **5.1.2 Process for Issuing Licenses**

The following process for obtaining logo usage rights approval applies to the use of the PEFC Logo in Malaysia. **Figure 1** provides an overview of this process.

---

<sup>4</sup>MTCC is required by the PEFC Council to provide data in accordance with its *GLI 4/2007, Internal Rules for the PEFC Registration System* or subsequent versions of GLI 4/2007.

**Figure 1: Logo License Issuance Procedure**

A company, organisation or individual has to obtain an official license from MTCC before printing, publishing or otherwise using the PEFC Logo and its related claims regardless of the logo usage group or logo usage alternative (off- or on-product usage). Applicants need to submit a completed application form to MTCC, as presented in **Appendix B**.

MTCC reviews the application form to determine whether the applicant has delivered all the required documents for scrutiny and that all the following predetermined PEFC Council requirements on the logo usage and reproduction are fulfilled:

- **Group B applicants** shall submit a copy of the valid and accredited forest management certificate, i.e. bearing the accreditation symbol of the national accreditation body, and evidence that a summary of the independent certification and surveillance audit reports have been made publicly available to stakeholders.
- **Group C applicants** shall submit a copy of the valid and accredited chain of custody certificate, i.e. bearing the accreditation symbol of the national accreditation body, and, where wood or wood based raw materials are sourced other than from entities that hold a valid PEFC Logo user license, evidence that the forest manager has made a summary of the independent certification and surveillance audit results publicly available to stakeholders.
- Where a company or organisation is both a forest owner and manager under Group B and a forest related industry under Group C, only one license shall be issued to the company or the organisation. The license shall be based on its Group C status. The requirements of 5.1.2 relating to Group B and Group C shall also be fulfilled in terms of the license agreement between the company or organisation and MTCC.

### **5.1.3 License Agreement**

If logo usage is approved, MTCC prepares a Logo Usage License Agreement (**Appendix C**) for the applicant. The License Agreement enters into force when both parties sign the agreement.

If the application for logo usage is declined, MTCC must provide reasons for the negative decision to allow the applicant the opportunity to provide further information in support of the application or to appeal the decision. In the case of an appeal, Section 5.4 describes the procedures to be followed in dealing with the appeal.

Upon the signing of the License Agreement, MTCC issues to the applicant the Logo license registration number and provides the Logo User with a CD containing the following:

- The PEFC Logo Usage Toolkit (**Appendix A**); and
- The current version of the PEFC ST 2001:2008 v2. (Any revision of this document is to be provided to the Logo User's designated contact by electronic mail).

MTCC will maintain contact with the Logo User's designated contact to ensure logo usage is carried out according to the principles and guidelines contained in the PEFC Logo Usage Toolkit.

### **5.1.4 Suspension of Logo Usage License**

MTCC reserves the right to suspend the logo usage license if the Logo User is suspected of misusing the logo or not complying with all the rules and requirements of the MTCS. If, after investigation, the suspicion is proven to be founded, the logo usage license will be cancelled.

## **5.2 Validity of Licenses**

MTCC issues the license for the following time periods according to the user groups:

**User group B:** for the period of PEFC forest management certificate validity

**User group C:** for the period of PEFC chain of custody certificate validity

**User group D:** for the period of validity of the agreement

## **5.3 PEFC Logo Usage without Licence Number**

The usage of the PEFC Logo without licence number is not allowed in principle. However, MTCC can allow the usage of the PEFC Logo without the licence number in exceptional cases based on a written application for off-product usage only where the placement of the licence number is not possible (e.g. small promotional materials).

The applicant shall be a holder of a license issued by MTCC and the free form application shall include:

- applicant identification data, PEFC Logo license number
- reason for the usage without the licence number
- description of the usage including design layout

The decision of MTCC shall be made by the Chief Executive Officer on behalf of MTCC and is valid only for the applied exemption and the applicant shall send the MTCC an example of the promotional material covered by the exemption.

## **5.4 Dispute Settlement**

MTCC provides an arrangement for an independent Dispute Resolution Committee that meets on an *ad hoc* basis and takes care of those complaints and appeals arising from scheme implementation or certification procedure that cannot be addressed in the dispute settlement procedures of the relevant accredited certification body or accreditation body. MTCC provides guidance on such complaints and appeals in its *Dispute Resolution Procedures* (document DRP 2/2013) which is available on the MTCC web site. Disputes related to matters covered in this document will be dealt with in accordance with the procedure in document DRP 2/2013.

Appeals, disputes and complaints concerning the certification process or the certification results are dealt with by the certification body according to the requirements covered by an accreditation. The relevant accreditation body, whose accreditation covers the certification, deals with disputes and complaints concerning observance of the accreditation requirements.

## **6. Registration and Coding System**

### **6.1 Register of Logo Users**

#### **6.1.1 Responsibility of MTCC**

A register of licensed PEFC Logo Users has to be kept in electronic format.

MTCC, in issuing licenses on behalf of the PEFC Council, is responsible for keeping an up-to-date register of:

- Forest management certificate holders;
- Chain of custody certificate holders; and
- All the on- and off-product Logo Users by user group.

The range of minimum data elements to be kept by MTCC is set by the *PEFC Internal Rules for the PEFC Registration System*. The registration of certificate holders and Logo Users can only be done in agreement with the forest owner, organisation or company being recorded, and has to be in compliance with effective regulations regarding security of individual data in information systems.

MTCC is also responsible for transmission of data relating to PEFC certificate holders and Logo Users to the PEFC Council. Under the PEFC's current policy, MTCC has to provide an update to the PEFC Council at the end of every month, and also when the PEFC Council requests specific data updates.

## **6.2 Coding System**

A logo usage registration coding system has been developed to support a register of logo usage licenses consistent with the PEFC Logo usage coding system. The PEFC coding system is specified in **Appendix D**. PEFC Logo usage license numbers shall be issued by MTCC as per the coding system set out in Appendix D.

## **6.3 Monitoring and Reporting**

PEFC Logo usage is subject to monitoring carried out by accredited certification bodies, MTCC and its appointed agents.

MTCC will provide periodic report summaries, based on its electronic registers, on its web site of the number of forest management and chain of custody certificate holders and Logo Users by user group and type of logo usage (on- or off-product).

## **3 Responsibilities of the Logo User**

- i. The Logo User must use the PEFC Logo in accordance with the PEFC ST 2001:2008 v2, and with the licence number issued by MTCC to ensure that the Logo User is readily identifiable on that basis. The graphical guidelines for the use of the PEFC Logo are specified in the PEFC Logo Usage Toolkit.

The Logo User shall bear responsibility for the costs of such inspection and any other detrimental effects, if the License Agreement has been contravened.
- iii. MTCC may impose a contractual penalty for unauthorised on- or off-product use of the PEFC Logo. The amount of the penalty will be set by MTCC, subject to the following considerations:
  - a) In the case of Group B (forest management group) as defined in the LG 6/2014, the contractual penalty that may apply is one-fifth of the market value of the products to which the unauthorised use relates, unless the Logo User demonstrates that such unauthorised use was unintentional. Withdrawal of the license granted by PEFC to MTCC will result in automatic withdrawal of the license(s) issued by MTCC for use of the PEFC Logo. This would take effect on the same date as the withdrawal of the license granted to MTCC by PEFC.

- ii. Either party may terminate the License Agreement with three-month prior written notice by registered letter.

- iii. The Logo User, in the case of Group C user group as defined in the LG 6/2014, shall undertake to provide, immediately after each chain of custody audit, MTCC with a notification, verified by the accredited certification body, of the on-product use of the PEFC Logo broken down by product, product category, production unit or similar, to the degree of accuracy that the chain of custody system used by the Logo User permits.
