### **Biosférická rezervace Dolní Morava, o.p.s (Biospheric Reservation Lower Morava), [www.dolnimorava.org](http://www.dolnimorava.org)**

Biosphere Reserve Lower Morava is part of the World Network of Biosphere Reserves and was formed with the participation of stakeholders and municipal of biosphere reserves, in accordance with the Seville Strategy of creation and management of biosphere Reservations statutes and the Framework of the World network of biosphere reserves.

Committee of the International Coordinating Council of UNESCO program " Man and Biosphere " in Paris approved the creation of Lower Morava Biosphere Reserve on 8th July 2003.

Lower Morava Biosphere Reserve is the only one biosphere reserve in the Czech Republic, which is represented by a non-profit non-governmental organizations, in which organs are also representatives from businesses, government, communities, professional organizations and non-profit organizations working in the territory of biosphere reserves. In the Czech Republic it is also the first time a biosphere reserve is represented by the non-governmental organization . This management model is unique in our country because until now management of Czech biosphere reserves was always associated with performance management of one of nature protection authorities, either the protected area or national park.

Lower Morava Biospheric Reservation is based in city Lednice and the function of director of the biosphere reserve Lower Morava is carried out by Ing. Jan Vybíral.

**Lesnický park Křivoklátsko (*Forestry Park Křivoklátsko*), [www.lpkrivoklatsko.cz](http://www.lpkrivoklatsko.cz)**

Forestry Park Křivoklátsko is an area of 17,000 hectares situated in the Middle Bohemia close to town Křivoklát, approximately 50 km west of Prague, on which owners and managers decided to implement forest management with the standard of forest parks. It is open to all nature-friendly human activities utilizing this region.

It was founded May 13th, 2010 by the free will of its founders, namely Jerome Colloredo - Mansfeld, the largest private owner of forests in the Czech Republic, by the company Forests of the Czech Republic and the Czech Forestry Association.

Establishment of the Forestry Park Křivoklátsko is the logical conclusion of the long series of generations of foresters with sensitive attitude to forests who has been managing the Křivoklát forests and the attitude of local residents to the whole country. All together for several centuries have been actively shaping the local landscape, have been sustainably using its natural resources and have been increasing its production potential. Continuing this process is fully in line with the traditions of life in the Czech countryside and guarantees not only enhancing the natural values of this area, but also preservation of Křivoklát forest as a cultural heritage of our ancestors. We believe that the depth of the forest park ideas will be appreciated by future generations.

**ČSOP - Český svaz ochránců přírody (*Czech Union for Nature Conservation*), [www.csop.cz](http://www.csop.cz)**

Czech Union for Nature Conservation (ČSOP) is a civic association of people who share an active interest in nature conservation and the environment. The mission is to protect and restore nature, the landscape and the environment, to promote environmental education and support sustainable living.

The range of ČSOP activities is very broad. Among others, management of valuable natural sites, carrying out biological field research and surveys, preservation of the richness of plant and animal life in the Czech Republic, work with children and youth as well as with the general public, providing care for injured or otherwise handicapped wildlife, participation in administrative decision-making processes, and cooperation in the preservation of cultural heritage.

The Union has existed since 1979 and its members come from the ranks of professional naturalists, experienced volunteers as well as pure enthusiasts who simply love nature. In around 350 local branches all over the Czech Republic there are almost 7 thousand adult members and over 2 thousand children organized in groups of Young Environmentalists. ČSOP also registers hundreds of individual members. ČSOP is a member of International Union for Conservation of Nature (IUCN) and is a founding member of the Czech National Committee of the United Nations Environment Programme (UNEP).

ČSOP head office is based in Prague and the function of the Union Chairman is carried out by RNDr. Libor Ambrozek.
