How to Fold and Cut

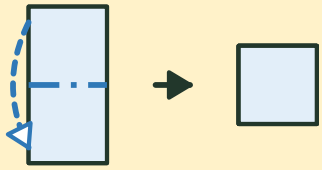

Cut through every layer at once, then open it slowly.

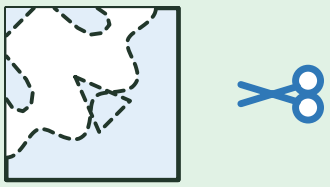

Cut · Cut away · Fold toward you · Fold behind

Level 1: fold in half twice

1. 
Cut out the square on the dashed line.

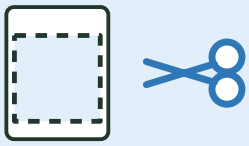

2. 
Fold the left half behind, along line 1.

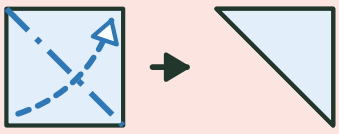

3. 
Fold the top half behind, along line 2.

4. 
Cut on the dashed lines, through every layer.

5. 
Unfold it gently. Ta-da!

Levels 2 and 3: six points

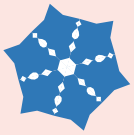

1. 
Cut out the square on the dashed line.

2. 
Fold corner to corner along line 1. Fold it behind.

3. 
Fold the right part over, along line 2.

4. 
Fold the left part behind, along line 3.

5. 
Cut on the dashed lines, through every layer.

6. 
Unfold it gently. Six points, like real snow!
