Paper Party Crown

Color all three bands, then cut them out on the dashed lines.

Use blunt-tip scissors. Ask a grown-up to help with tape.

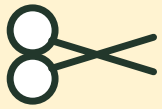

With Peko Pal, kids print pages like this themselves.

How to Make Your Crown

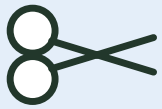

Three bands make one crown.

1.  Color the stars, jewels and points. Make it yours!

2.  Cut out the three bands on the dashed lines.

3.  Tape or glue each shaded tab behind the next band's left end.

4.  Wrap the crown around your head and tape the last tab.

5.  Too big? Cut a little off the end of the last band first.

Make a crown for someone else, too!

A friend, a sibling or Grandpa would love one.
