

Products Roadmap

meme-o-tron

Our inaugural release: meme-o-tron, a home for your freshly minted NFT pet. Bond and create shareable moments with your unique pet in AR or in 3D, our app is optimised to support LIDAR on iOS.

AVAILABLE ALONGSIDE MINT!

VR

The modern world can be demanding - everyone needs somewhere without stresses, where they can just disconnect. Petaverse VR is that place - a series of relaxing environments for you and your pets, free of worry, where you can kick back and relax.

Release date: March/April '23

Breeding

We believe the power to grow the Petaverse, whatever the pet type (cat or [redacted] or [redacted] or [redacted]) should heavily involve the Petaverse community. Breeding and selling your own, pairing up with other breeders, creating all new rare types. This - and [redacted] lots more [redacted] - is coming with Petaverse Breeding Season 1.

Release date: [redacted]

Next pet release

We're thrilled to introduce our next category of pets -

[redacted] Alpha coming soon [redacted] and [redacted] plus [redacted] June!

Release date: [redacted]

10 Minute Tails

Prepare for endless text adventures with your Petaverse pet! Merge your cat's unique traits with OpenAI's advanced AI to tackle alien battles, haunted house mysteries, and more!

Arriving soon as a complimentary bonus for Petaverse pet owners.

Arriving soon as a complimentary bonus for Petaverse pet owners.

Petaverse Live!

Life as a streamer can be lonely - but with our OBS/Twitch app, your Petaverse pet can become your on-screen sidekick. So give yourself some good vibes - invite your pet into your Twitch stream, and watch it connect with you and your fans.

Release date: Summer '23
