List of Abbreviations	VII
List of Figures	XI
List of Tables	XII
Welcoming Address of the Minister of Energy and Mineral Resources of the Republic of Indonesia	XVI
Welcoming Address of the Director General of New, Renewable Energy, and Energy Conservation	XVII
Executive Summary	XVIII
1 Introduction	1
1.1 Background	2
1.1.1 National Hydrogen Strategy (NHS)	2
1.1.2 Energy Security, Economic Competitiveness, and Environmental Sustainability	3
1.2 Objectives of the National Hydrogen and Ammonia Roadmap	4
1.3 Methodology and Preparation Process	5
2 Global Developments in Hydrogen and Ammonia	8
2.1 Global Perspective	8
2.1.1 Hydrogen and Ammonia Production	8
2.1.2 Hydrogen and Ammonia Storage and Distribution Technologies	15
2.1.3 Utilization of Hydrogen and Ammonia	17
2.1.4 Trends in Hydrogen and Ammonia Ecosystem Development	20
2.2 National Perspective	24
3 National Hydrogen and Ammonia Supply and Demand Analysis	30
3.1 Hydrogen Roadmap	30
3.1.1 Projected Growth in Hydrogen Utilization	30
3.1.2 Hydrogen Production	45
3.1.3 Cumulative Hydrogen Supply and Demand	56
3.1.4 Hydrogen Storage and Distribution	57
3.2 Ammonia Roadmap	59
3.2.1 Projected Growth in Ammonia Utilization	59
3.2.2 Ammonia Production	63
3.2.3 Ammonia Storage and Distribution	67
4 Implementation Strategy and Action Plan for National Hydrogen and Ammonia Development	71
4.1 Pillars of the National Hydrogen Strategy	72
4.2 National Hydrogen and Ammonia Action Plan	78
4.2.1 Ecosystem Development	81
4.2.2 Supply Chain Development	88
4.3 Activity Monitoring & Evaluation	96

List of Contents

ATTACHMENT	99
A. Stakeholders	100
Attachment A.1 List of Consensus Participants	100
Attachment A.2 Coding of the National Hydrogen Strategy	102
Attachment A.3 Coding of the Implementation Strategy	103
Attachment A.4 Action Plan	104
B. Activity Table	105
Table B. Linkage Between Programs and Activities of Various Stakeholders with the Pillars of the National Hydrogen Strategy (NHS), Implementation Strategy (IS), and Action Plan (AP) in the Development of the Ammonia Utilization Supply Chain	105
C. Contributors	120
