

## COMING ATTRACTIONS ▶

**D**URING THE 2015 ePharma Summit, Conference Chairman Paul Ivans, who is also founder, president, and CEO of Evolution Road Consulting, will discuss how pharma must adapt to the new healthcare environment and how marketing innovation can help pharma succeed in the new world of healthcare and focus on new customers — a new and diverse set of customers within organized health systems such as IDNs and ACOs — as decision makers rapidly change from the HCP core targets. Companies need to create new value propositions “far beyond the pill” as these new customers demand pharma evolve from an industry adept at selling pills to one that is focused on meeting higher-level goals, including improving population health outcomes and reducing health system costs.
