

COMING ATTRACTIONS

THE ANNUAL BIO International Convention, June 15-18, 2015, in Philadelphia covers the wide spectrum of life-sciences innovations and application areas. Drug discovery, biomanufacturing, genomics, biofuels, nanotechnology, and cell therapy are just a few of the industries represented at the conference. According to BIO, the top five reasons for attending are: partnering within the BIO Business Forum; make new business contacts; keep up to date on industry trends and issues; visit potential partners in the BIO Exhibition; and network with colleagues.

Organizers expect more than 15,600 attendees from 66 countries and 50 states.

Keynote presenters include Tom Brokow and Dr. Eric Topol.
