

COMING ATTRACTIONS

THE INAUGURAL Rational Combinations 360° — June 23 - 24, 2016 Park Lane Hotel, New York, NY — is the only event addressing business aspects, novel clinical trial designs, and scientific developments for combination immunotherapies.

With promising cancer immunotherapies in the clinic and an encouraging pipeline of new targets being developed, additional discoveries are now under way to determine the most effective rational combinations that are personalized for individual patients and for specific tumor types. Increased emphasis on prioritizing combinations will be crucial for decision making. Both small and large companies are now racing to bring game-changing combination therapies to the market. As a result, novel therapies and innovative trial designs are creating increased momentum for investment/business development opportunities.

Designed by lead advisor Dr. Ian McCaffery of Corvus Pharmaceuticals, along with advisory board members Drs. Axel Hoos from GSK, Michael Kalos from Lilly, Patricia Marinello from Merck, and Omid Hamid from The Angeles Clinic and Research Institute, the Rational Combinations 360° will provide the most up-to-date progress on combination developments from business aspects, clinical advancements, and scientific data that will help prioritize the best cancer treatments for individual patients and tumor types.

Clinical Trial Supply Nordics 2016

14TH–15TH JUNE, COPENHAGEN, DENMARK

Collaborating to discover innovative strategies to improve efficiency within local and global clinical supply chains

The 2016 Clinical Trial Supply Nordics conference will provide solutions to professionals in the **Nordic region, home to some of the world's most innovative pharma and biotech companies.** This interactive two day conference offers a unique platform for attendees to discuss relevant topics, hear from leading industry representatives and gain expert knowledge on how to successfully overcome challenges currently facing the clinical supply chain.

Key 2016 topics include:

- Addressing how scientific data and a risk-based distribution strategy can lower the risk of temperature excursions to avoid wasted product within the clinical supply chain
- Investigating typical findings and observations in GMP audits and inspections to explore how best to comply with current regulations
- Debating how to simplify labels to increase efficiency while also remaining regulatory-compliant
- Exploring current regulations to determine best practice and avoid delays in clinical supply caused by non-compliance
- Exploring the challenges of clinical manufacturing from a small company perspective

2016 Speaker Panel includes:

- **Eva-Lotta Persson**, Supply Chain Programme Manager, **Astrazeneca**
- **Mette Bjorn**, Medicines Inspector, **Danish Medicines Agency**
- **Janet Hoogstraate**, Head of Clinical Manufacturing, **Valneva**
- **Carsten Vendelbo Jensen**, Trial Supplies Planner, **Novo Nordisk**
- **Dan Markusson**, COO, **Peptonic Medical**

Clinical Trial Supply Southeast 2016

15TH-16TH JUNE, CARY, NORTH CAROLINA

Developing effective strategies and introducing novel technologies to encourage an effective international clinical trial supply chain management

Targeted specifically to the needs of the Southeast region, this conference offers attendees the opportunity to take advantage of a relevant agenda as well as meet industry colleagues and key representatives in an intimate atmosphere. **With a wide range of presentations, case studies and panel discussions**, this event will allow you to understand the full potential of the clinical supply chain and learn about the best practice methods to optimise your strategies.

Key 2016 topics include:

- Implementing an agile supply chain model that ensures flexibility and responsiveness to meet uncertain patient recruitment
- Developing contingency plans: How to respond in crisis situations to minimize disruption and ensure clinical trial supply budgets and timelines stay on track
- Uncovering effective solutions to distribution challenges to ensure your supplies arrive on time and in good condition
- U.S. Customs and Border Protection's (CBP) Pharmaceutical, Health and Chemicals Center of Excellence and Expertise (CEE)

2016 Speaker Panel includes:

- Anthony Orosz, Assistant Director, Pharmaceutical CEE, **US Customs**
- Greg Hottell, Acting Director, Global Supply Chain Management, **GSK**
- Michael Hellerstein, Director, Regulatory Affairs and Quality Systems, **GeoVax**
- Jeff Hunter, Vice President of Operations, **Novan Therapeutics**
