

2018 RED JACKET HONOREES

Leaders for today and tomorrow

PharmaVOICE introduced the Red Jacket Award, now in its fifth year, to celebrate the 10th anniversary of the PharmaVOICE 100.

One of the criteria for being named a Red Jacket — our version of a Hall of Fame — is having been recognized previously as a PharmaVOICE 100 honoree, but it's much more than just that. These individuals, who cross a multitude of industry sectors, have raised the bar in terms of what it means to be an inspiring leader for their teams, their companies, their communities, and for the industry at large. PharmaVOICE selects Red Jacket Honorees each year based on a number of criteria, including:

- For challenging us to think differently, act differently, and lead differently
 - For creating new opportunities to make what was once impossible — possible
 - For focusing beyond short-term gains and committing to executing their long-term visions in a tightly regulated and competitive industry
 - For having a persistence of vision
 - For truly transforming the life-sciences industry to create better health outcomes for all
- These inspiring, innovative, collaborative, and transformative individuals are leaders for today and tomorrow.
