

# 2019 RED JACKET HONOREES

Leaders for today and tomorrow

PharmaVOICE introduced the Red Jacket Award, now in its fifth year, to celebrate the 10th anniversary of the PharmaVOICE 100. One of the criteria for being named a Red Jacket — our version of a Hall of Fame — is having been recognized previously as a PharmaVOICE 100 honoree, but it's much more than just that. These individuals, who cross a multitude of industry sectors, have raised the bar in terms of what it means to be an inspiring leader for their teams, their companies, their communities, and for the industry at large. PharmaVOICE selects Red Jacket Honorees each year based on a number of criteria, including:

- For challenging us to think differently, act differently, and lead differently
- For creating new opportunities to make what was once impossible — possible
- For focusing beyond short-term gains and committing to executing their long-term visions in a tightly regulated and competitive industry
- For having a persistence of vision
- For truly transforming the life-sciences industry to create better health outcomes for all

These inspiring, innovative, collaborative, and transformative individuals are leaders for today and tomorrow.

# CARDIOMETABOLIC HEALTH: Taken to New Heights

## The Cardiometabolic Event of the Year

OCTOBER 10-13, 2019  
CHICAGO, IL

**EARN**  
**23+ CME**  
credit hours

### Access the Most Current Clinical Education

With session topics that include recently emerging topics in cardiometabolic health, attendees will internalize current & contemporary developments in the field.

### Listen to World-Renowned Faculty & Clinicians

Spearheaded by illustrious and eminent experts that include clinicians, researchers, and thought leaders, the event is both planned and guided by top-tier authorities.

### Socialize and Network with Peers & Colleagues

Through an Exhibit Hall and planned networking opportunities, this conference enables attendees to interact with each other during events, Happy Hours, & scheduled breaks.

### Discover Hands-On Practices & Protocols for Patients

Given the escalating epidemic of cardiovascular disease, the conference is not only dedicated to didactic education, but also directly applicable strategies.
