

# 2020 RED JACKET HONOREES

Inspiring Leaders for Today and Tomorrow

Since launching the Red Jacket Award in 2014, PharmaVOICE has recognized 40 inspiring, innovative, collaborative, and transformative individuals who epitomize leadership for today and tomorrow. Red Jacket honorees have raised the bar in terms of what it means to be an inspired leader for their teams, their companies, their communities, and the industry at large. Red Jacket honorees challenge us to think differently, act differently, and lead differently; create new opportunities to make what was once impossible — possible; focus beyond short-term gains and commit to executing their long-term visions in a tightly regulated and competitive industry; have a persistence of vision; and transform the life-sciences industry to create better health outcomes for all.
