

COMING ATTRACTIONS

THE GLOBAL SITE SOLUTIONS SUMMIT, produced by the Society for Clinical Research Sites (SCRS), is committed to being "the site's meeting." The conference provides a unique hub where sites, sponsors, CRO executives, and regulators come together and share best practices; build their businesses; and develop new partnerships through debates, ideation sessions, workshops, and focus groups. This year, the Global Site Solution Summit is stronger than ever, with research leaders having the unique opportunity to exchange ideas, update their practices, and learn how to keep up with the disruptions and shifts.

SCRS is confident that by increasing site sustainability, all life-science stakeholders will realize greater efficiency and profitability, and successfully meet our ultimate commitment to bring safe medical treatments to patients faster.

This year's Summit takes place Oct. 13-16 at the Waldorf Astoria, Boca Raton, Fla.
