

COMING ATTRACTIONS

THE CONNECTED HEALTH CONFERENCE, Dec. 11-14, at the Gaylord National in Washington, D.C., is the largest and most diverse gathering of public sector and health and technology industry leaders working at the intersection of innovative product and service development, research, business, and policy throughout the world. Building thought leadership across the ecosystem, this year's conference focuses on an increasingly consumer-centered, technology-enabled, and collaborative approach to improving health. Each component — from keynotes, panel discussions, interactive sessions, roundtables, and the dynamic exhibit floor — focuses on new research and actionable knowledge such as best practices, lessons learned and conclusive case studies.
