Coming **ATTRACTIONS**

Two colocated conferences produced by The Conference Forum will be held in Boston September 13-14.

The 3rd Annual Executing Global Clinical Trials will focus on the strategies that will provide increased efficiency and produce higher quality data at less cost in the global clinical trial arena. Selected agenda items include: a focus on risk-based monitoring, meeting the challenges of outsourcing and globalization, investigator noncompliance and protocol deviation, social media techniques and mobile technologies to advance global patient engagement, the future of drug development in Asia/emerging markets, and global clinical supply chain risk management strategies.

The 2nd Annual Disruptive Innovations to Advance Clinical Trials for Pharma, Biologics, and Devices is designed for drug development innovative thinkers who are determined to re-invent clinical trials. It is an outcomes-focused program that not only delves deeply into the key strategic factors impeding clinical trial productivity, but also endeavors to connect change makers who can share current solutions, propose new solutions and commit to testing them and share the results.

The world's largest producer of virtual events within the Life Sciences community

6th Annual Life Sciences | September 12-13, 2012

This event will be our 6th Annual Life Sciences BioConference Live virtual event. Attendees can earn free CE Credits accredited by PACE. The theme of this online conference is a range of life science topics such as: Genomics, Cancer Research, Drug Discovery, Microbiology, Molecular Biology, Neuroscience, Bioinformatics, Biomarkers, Cell Biology, Next Generation Sequencing, Automation, High Throughput Screening, Proteomics, Stem Cell Technologies, and much more.

This event will bring together researchers, lab managers and directors, academia, and industry from around the world to learn about the most recent advances in Life Sciences. This conference offers an amazing opportunity as it's free to participants and there are no out of pocket travel expenses. However, participants will still benefit from interacting with a global community of like-minded colleagues, without leaving the comfort of their office or lab.
