inVentiv Health **Clinical**

## ***Advancing Clinical Innovation***

inVentiv Health Clinical combines state-of-the-art clinics and bioanalytical labs, leading therapeutic expertise in Phase II-IV, and customizable strategic resourcing approaches to provide a full range of clinical development services to accelerate drug development.

- Global Footprint: A Top 5 CRO operating in more than 70 countries
- Therapeutic Excellence: Leading therapeutic expertise aligned to all stages of development
- Patient Recruitment and Retention: Data-driven and research-informed communication strategies to maximize effective patient recruitment and retention
- Late-Stage Expertise: Effectively generating and persuasively communicating evidence of real-world safety and value
- Strategic Resourcing: Adaptive, cost-effective solutions from contingent staffing to functional models and staff lift outs
