Authorization to Correct

Re: Authorization to Correct

To prevent future damage to the road and to prevent future sink holes in the street, the Board of Directors has contracted PTG Enterprises to fill in the gravel area between each driveway with concrete. This will prevent water runoff from the downspouts as well as the roof from seeping into the ground and under the street causing erosion. This work is scheduled to take place in the Spring of 2018. The contractor will install forms around the posts of the decks, keeping within the County Code tolerances. As for the air conditioning condensing units, the contractor will take the utmost care in raising the units and setting them on blocks in order to concrete the pad.

The Board of Directors is requesting authorization from you, the owner, to allow this area to be cemented at the expense of the Association. Please authorize the Association to take care of this problem. You may want to keep a copy of this letter for your records.

If you have any questions please email your Property Manager, Jeremy - jeremy@pinnacle-md.com

Sincerely,
Pinnacle Properties
