

Google Pixel 7 Pro

Security that delivers more for SMEs

High-level overview

The all-new Pixel 7 Pro is the business-ready smartphone that delivers more for your SMB. Powered by the Google Tensor G2 processor that both helps to boost workforce productivity and protects sensitive data with no-stress security features, the Pixel 7 Pro delivers incredible value while adapting to you to provide what your business needs.

The value-driven phone that empowers businesses with premium productivity features

Redesigned flagship with the most advanced features

Starting at £849, the Pixel 7 Pro is Google's most advanced device, featuring a top-of-the-line camera, all-day battery¹, high-res display, Quick Phrases², Transcriptions, Call Screen³ and AI-powered Google Assistant⁴ along with enterprise-grade performance, all on the Google-designed Android 13 OS.

Perfect-fit mobility

Scale your small business with your smartphone. Pixel 7 Pro packs productivity apps, streamlined APIs and perfect-fit mobility into a custom-configured and easily deployed device, so that you can work quickly and have control managing your small businesses.

Packed with next-gen tech and a next-gen experience

The Pixel 7 comes with the Google Tensor G2 processor that's custom-built by Google. Tensor G2 uses artificial intelligence and machine learning to provide better experiences for Pixel users, such as effortlessly translating speech into text⁵, and 5G⁶ features like Google Meet HD⁷ screen sharing that help you collaborate with colleagues over a video call.

All-day productivity on a single charge

Pixel's adaptive battery can last over 24 hours¹ and its Extreme Battery Saver helps your phone last up to 72 hours¹, even on 5G⁶, by turning off features that you are not using and pausing apps for more time between charges – helping you focus on the task at hand without worry.

Outstanding trust and protection that makes connecting and collaborating at work stress free

A small business no-brainer

Save time and effort with out-of-the-box deployment, baked-in security features and automatic software updates⁸. With Pixel, you can focus on growing your business, not wrangling tools.

Next-generation threat protection

The Pixel 7 Pro comes with Titan M2TM, an enterprise-grade security chip, and Google Tensor G2, the processor with a built-in Tensor security core, making your phone even more resilient to attacks⁹.

Security your way

The Security hub helps protect your phone, apps, Google Account and passwords. It keeps all your security settings in one place. And it gives you recommendations with simple steps that you can take to improve your security.

Your business, your apps

Pixel works with all the apps that you know and love, including Google Workspace and more. The Android OS also supports the custom applications that your small business needs.

Tech specs

Display and dimensions - Full-screen 170 mm (6.7-inch)¹⁰ QHD+ LTPO OLED display, Smooth Display (up to 120 Hz)¹¹, 19.5:9 aspect ratio - Corning® Gorilla® Glass Victus™ cover glass - High brightness mode: Up to 1,000 nits (HDR) and up to 1,500 nits (peak brightness)¹² >1,000,000:1 contrast ratio - Full 24-bit depth for 16 million colours - Always-on display with At a Glance and Now Playing	Security and authentication - Minimum five years of security updates⁸ - Anti-phishing and anti-malware protection - Automatic security checks and privacy controls with Security hub - Android Messages end-to-end encryption and Android backup encryption - Fingerprint Unlock with under-display fingerprint sensor - Built-in VPN powered by Google One (coming soon)¹⁶
Battery and charging - Over 24-hour battery life¹; up to 72-hour battery life with Extreme Battery Saver¹ - Battery minimum 5,000 mAh¹³ with fast charging¹⁴	Processor - Titan M2™ security coprocessor - Google Tensor G2
Memory and storage 12 GB LPDDR5 RAM 128 GB of storage¹⁵	Camera 50 MP w/OIS main camera, 12 MP 4K @ w/AF ultrawide camera, 48 MP 5x telephoto lens¹⁷ (10x zoom) and 10.8 MP front camera - Features include Macro Focus, Magic Eraser¹⁸, Real Tone and Face Unblur¹⁹
Video 10-bit HDR video - Cinematic Blur - Rear camera: 4K video recording at 30 FPS, 60 FPS; 1080p video recording at 30 FPS, 60 FPS - Front camera: 4K video recording at 30 FPS, 60 FPS - Slow-motion video support up to 240 FPS 4K timelapse with stabilisation 4K Cinematic Pan video stabilisation - Features include low light and Real Tone	Sensors - Proximity sensor - Ambient light sensor - Accelerometer - Gyrometer - Magnetometer - Barometer
Media and audio - Stereo speakers - Three microphones - Noise suppression	Connectivity and location - Wi-Fi 6E (802.11ax) with 2.4 GHz + 5 GHz + 6 GHz, HE160, MIMO - Bluetooth® v5.2 with dual antennas for enhanced quality and connection - Ultra-wideband

¹ For 'over 24 hours': Estimated battery life based on testing using a median Pixel user battery usage profile across a mix of talk, data, standby and use of other features. Average battery life during testing was approximately 31 hours. Battery testing conducted on a major operator network. For 'Up to 72 hours': Estimated battery life based on testing using a median Pixel user battery usage profile across a mix of talk, data, standby and use of limited other features that are default in Extreme Battery Saver mode (which disables various features including 5G connectivity). Battery testing conducted on a major operator network. For both claims: Battery testing conducted in California in mid 2022 on pre-production hardware and software using default settings, except that, for the 'up to 72 hours' claim only, Extreme Battery Saver mode was enabled. Battery life depends upon many factors, and usage of certain features will decrease battery life. Actual battery life may be lower.

² Not available in all languages or countries. See g.co/assistant/languages for details.

³ Not available in all languages or countries. For more information, see g.co/help/callscreen.

⁴ Not all phone features can be controlled by voice. Not available for all apps. Google Assistant and some related features are not available in all languages or countries. See g.co/assistant/languages for updates to language and country availability.

⁵ Not available in all languages or countries. See <https://g.co/assistant/voicetyping> for details.

⁶ Requires a 5G data plan (sold separately). 5G service not available on all operator networks or in all areas. Contact operator for details. 5G service, speed and performance depend on many factors, including operator network capabilities and signal strength. Actual results may vary. Some features not available in all areas. Data rates may apply. See g.co/pixel/networkinfo for info.

⁷ Google Meet screen sharing requires an Internet connection. Not available on all apps and content. Data rates may apply. 5G service, speed and performance depend on many factors including, but not limited to, operator network capabilities, device configuration and capabilities, network traffic, location, signal strength and signal obstruction.

⁸ Android security updates for at least five years from when the device first became available on the Google Store in the US. See g.co/pixel/updates for details.

⁹ Compared to Pixel 6a.

¹⁰ Measured diagonally; dimension may vary by configuration and manufacturing process. Not available for all apps or content.

¹¹ Not available for all apps or content.

¹² HDR brightness measured at 100% on-pixel ratio. Peak brightness measured at 5% on-pixel ratio.

¹³ Estimate of typical capacity based on testing and expected mobile behaviour.

¹⁴ Fast wired charging rates (up to 20 watts on Pixel 7 and up to 23 W on Pixel 7 Pro) are based upon use of the Google 30W USB-C® Charger plugged into a wall outlet. Actual results may be slower. Adapters sold separately.

¹⁵ Storage specifications refer to capacity before formatting. Actual formatted capacity will be less.

¹⁶ Coming soon to Pixel 7 and Pixel 7 Pro. Restrictions apply. Some data is not transmitted through VPN. Not available in all countries. All other Google One membership benefits sold separately. This VPN offer does not impact the price or benefits of the Google One Premium plan. Use of a VPN may increase data costs depending on your plan. See g.co/pixel/vpn for details.

¹⁷ Maximum resolution and field of view with RAW image files setting turned on. Setting is turned off by default. See g.co/pixel/photoediting for more information.

¹⁸ Requires Google Photos app. Magic Eraser may not work on all image elements.

¹⁹ Deblurring may not work on all photos or videos with faces.
