Pixel for Business

Google Pixel 7
Security that is priced right for Public Sector

High-level overview

The all-new Pixel 7 is the business-ready smartphone that is priced right for your Public Sector. Powered by the G2 Google Tensor processor that both boosts workforce productivity and protects sensitive data with stress-reducing security features, the Pixel 7 delivers incredible value while adapting to you to provide what your business needs.

The value-driven phone that empowers businesses with premium productivity features

Redesigned Flagship with the most advanced features
Starting at $599, the Pixel 7 features an incredible camera, all-day battery, high-res display, Quick Phrases, Transcriptions, Call Screen, and AI-powered Google Assistant along with enterprise-grade performance, all on the Google-designed Android 13 OS at a Public Sector-friendly price.

Quick integration when it matters most
Google powered, Public Sector ready. Pixel 7 works with all the leading productivity and collaboration apps you need to access when it matters most while the Android OS supports your company's custom application and integration needs.

Pixel (em)powers the Public Sector.
Give employees access to everything they need to do their jobs – whether they're at home, in the office, or out in the field. Pixel 7 puts the latest technology in your team's hands, so they can make critical decisions quickly.

All-day productivity on a single charge
Pixel's adaptive battery can last over 24 hours and its Extreme Battery Saver helps your phone last up to 72 hours, by turning off features you are not using and pausing apps for more time between charges - helping you focus on the task at hand without worry.

Outstanding protection that makes connecting and collaborating at work stress-free

Next-generation threat protection
The Pixel 7 comes with Titan M2, an enterprise-grade security chip, and Google Tensor G2, the processor with a built-in Tensor security core, making your phone even more resilient to attacks.

Seamless security updates
The Pixel 7 downloads and runs the latest Android security features and updates for at least five years, which keeps your phone protected and secure against ever-evolving threats.

Your phone—and your phone only
Pixel 7 comes equipped with biometric security protections, like Fingerprint Unlock, help ensure your device is secure. Additional embedded security features like Factory Reset, Remote Lock, Face Unlock, and Safe Browsing, offer extra protection.

Free built-in VPN
Your phone has a free built-in VPN enabled by Google One (coming soon), so you have extra protection wherever you’re connected and no matter what app or browser you’re using.

Security Certifications & Accolades
Pending security certifications for the Pixel 7 include: FIPS (Federal Information Processing Standards), STIG (Security Technical Implementation Guides), SOC2, ISO 27001.

## Tech specs

### Display and Dimensions
- Full-screen 6.3-inch (160.5 mm)\(^3\) FHD+ gOLED Display, Smooth Display (up to 90\(^3\)) Hz, 19.5:9 aspect ratio
- Corning® Gorilla® Glass Victus™ cover glass
- High brightness mode: Up to 1000 nits (HDR) and up to 1400 nits (Peak brightness)\(^16\)
- >1,000,000:1 contrast ratio
- Full 24-bit depth for 16 million colors
- Always-on display with At a Glance and Now Playing

### Battery and Charging
- Over 24-hour battery life\(^1\); up to 72-hour battery life with Extreme Battery Saver\(^8\)
- Battery minimum 4355 mAh\(^9\) with fast-charging\(^10\)

### Memory and Storage
- 8 GB LPDDR5 RAM
- 128 / 256 GB storage\(^11\)

### Video
- 10-bit HDR Video
- Cinematic blur
- Rear camera: 4K video recording at 30 FPS, 60 FPS; 1080p video recording at 30 FPS, 60 FPS
- Front camera: 4K video recording at 30 FPS, 60 FPS
- Slo-mo video support up to 240 FPS
- 4K timelapse with stabilization
- 4K Cinematic Pan video stabilization
- Features include Low Light, and Real Tone

### Processor
- Titan M2™ security coprocessor
- Google Tensor G2

### Camera
- 50MP w/OIS Main camera, 12MP 4K ultrawide camera\(^12\), and 10.8 MP front camera
- Features include Macro Focus, Magic Eraser\(^13\), Real Tone, and Face Unblur\(^14\)

### Sensors
- Proximity sensor
- Ambient light sensor
- Accelerometer
- Gyrometer
- Magnetometer
- Barometer

### Security and Authentication
- Minimum 5 years of security updates\(^7\)
- Anti-phishing and anti-malware protection
- Automatic security checks and privacy controls with Security hub
- Android Messages end-to-end encryption and Android backup encryption
- Fingerprint Unlock with under-display fingerprint sensor
- Built-in VPN powered by Google One (coming soon)\(^3\)

### Media and Audio
- Stereo speakers
- 3 microphones
- Noise suppression

### Connectivity and Location
- Wi-Fi 6E (802.11ax) with 2.4GHz+5GHz+6GHz, HE160, MIMO
- Bluetooth\(^\circ\) v5.2 with dual antennas for enhanced quality and connection

---

\(^1\) For “over 24 hours”: Estimated battery life based on testing using a median Pixel user battery usage profile across a mix of talk, data, standby, and use of other features. Average battery life during testing was approximately 31 hours.

\(^2\) Battery testing conducted on a major carrier network. For “up to 72 hours”: Estimated battery life based on testing using a median Pixel user battery usage profile across a mix of talk, data, standby, and use of limited other features that are default in Extreme Battery Saver mode (which disables various features including 5G connectivity). Battery testing conducted on a major carrier network. For both claims: Battery testing conducted in California in mid 2022 on pre-production hardware and software using default settings, except that Extreme Battery Saver mode was enabled. Battery life depends upon many factors and usage of certain features will decrease battery life. Actual battery life may be lower.

\(^3\) Not all phone features can be controlled by voice. Not available for all apps. Google Assistant and some related features are not available in all languages or countries. See g.co/assistant/languages for updates to language and country availability.

\(^4\) Not available in all languages or countries. See https://g.co/assistant/voiceetting for details.

\(^5\) Requires a 5G data plan (sold separately). 5G service not available on all carrier networks or in all areas. Contact carrier for details. 5G service, speed and performance depend on many factors, including carrier network capabilities and signal strength. Actual results may vary. Some features not available in all areas. Data rates may apply. See g.co/assistant/networkinfo for info.

\(^6\) Estimated battery life based on testing using a mix of talk, data, standby, and use of limited other features that are default in Extreme Battery Saver mode (which disables various features including 5G connectivity). Battery testing conducted on a major carrier network. Battery testing conducted in California in early 2022 on pre-production hardware and software using default settings, except that for the “up to 72 hours” claim only, Extreme Battery Saver mode was enabled. Battery life depends upon many factors and usage of certain features will decrease battery life. Actual battery life may be lower.

\(^7\) Not all phone features can be controlled by voice. Not available for all apps. Google Assistant and some related features are not available in all languages or countries. See g.co/assistant/languages for updates to language and country availability.

\(^8\) Compared to Pixel 6a.

\(^9\) For “over 24 hours”: Estimated battery life based on testing using a median Pixel user battery usage profile across a mix of talk, data, standby, and use of other features. Average battery life during testing was approximately 31 hours.

\(^10\) Battery testing conducted on a major carrier network. For "up to 72 hours": Estimated battery life based on testing using a median Pixel user battery usage profile across a mix of talk, data, standby, and use of other features that are default in Extreme Battery Saver mode (which disables various features including 5G connectivity). Battery testing conducted on a major carrier network. For both claims: Battery testing conducted in California in mid 2022 on pre-production hardware and software using default settings, except that, for the “up to 72 hours” claim only, Extreme Battery Saver mode was enabled. Battery life depends upon many factors and usage of certain features will decrease battery life. Actual battery life may be lower.

\(^11\) Not all phone features can be controlled by voice. Not available for all apps. Google Assistant and some related features are not available in all languages or countries. See g.co/assistant/languages for updates to language and country availability.

\(^12\) Not available in all languages or countries. For more information, see g.co/help/callscreen for details.

\(^13\) Requires Google Photos app. Magic Eraser may not work on all image elements.

\(^14\) Deblurring may not work on all photos or videos with faces.

\(^15\) High brightness mode: Up to 1000 nits (HDR) and up to 1400 nits (Peak brightness)\(^16\)

\(^16\) Maximum resolution and field of view with RAW image files setting turned on. Setting is turned off by default. See g.co/pixel/photoediting for more information.

\(^17\) Estimate of typical capacity based upon testing and expected cell behavior.

\(^18\) For “over 24 hours”: Estimated battery life based on testing using a median Pixel user battery usage profile across a mix of talk, data, standby, and use of other features. Average battery life during testing was approximately 31 hours.

\(^19\) Battery testing conducted on a major carrier network. For “up to 72 hours”: Estimated battery life based on testing using a median Pixel user battery usage profile across a mix of talk, data, standby, and use of limited other features that are default in Extreme Battery Saver mode (which disables various features including 5G connectivity). Battery testing conducted on a major carrier network. For both claims: Battery testing conducted in California in mid 2022 on pre-production hardware and software using default settings, except that, for the “up to 72 hours” claim only, Extreme Battery Saver mode was enabled. Battery life depends upon many factors and usage of certain features will decrease battery life. Actual battery life may be lower.

\(^20\) Not all phone features can be controlled by voice. Not available for all apps. Google Assistant and some related features are not available in all languages or countries. See g.co/assistant/languages for updates to language and country availability.

\(^21\) Not available in all languages or countries. For more information, see g.co/help/callscreen for details.

\(^22\) For “over 24 hours”: Estimated battery life based on testing using a median Pixel user battery usage profile across a mix of talk, data, standby, and use of other features. Average battery life during testing was approximately 31 hours.

\(^23\) Battery testing conducted on a major carrier network. For “up to 72 hours”: Estimated battery life based on testing using a median Pixel user battery usage profile across a mix of talk, data, standby, and use of limited other features that are default in Extreme Battery Saver mode (which disables various features including 5G connectivity). Battery testing conducted on a major carrier network. For both claims: Battery testing conducted in California in mid 2022 on pre-production hardware and software using default settings, except that, for the “up to 72 hours” claim only, Extreme Battery Saver mode was enabled. Battery life depends upon many factors and usage of certain features will decrease battery life. Actual battery life may be lower.

\(^24\) Not all phone features can be controlled by voice. Not available for all apps. Google Assistant and some related features are not available in all languages or countries. See g.co/assistant/languages for updates to language and country availability.

\(^25\) Not available in all languages or countries. For more information, see g.co/help/callscreen for details.
