"PGFC is one of the forums presented by Petrokimia Gresik to bring out new talents or athletes in the sport of futsal. This competition competes with teams from high school/equivalent so that participants still have the opportunity to become professional athletes and excel through further coaching," said Ketut.

As for the 32 teams that competed, as many as 22 teams came from schools in Gresik Regency. Next, three teams each from Lamongan and Sidoarjo, as well as two teams each from Surabaya and Mojokerto. The role of Petrokimia Gresik through PGFC is to provide space and means for these talents to hone themselves and mentally in competing," added Ketut.

Meanwhile, to encourage PGFC participants to become outstanding athletes, in this year's event, Petrokimia Gresik also provided several assistance and facilities, including free registration fees, each team getting a set of jerseys for all players, futsal ball assistance for teams that passed the group stage, and prizes of tens of millions of rupiah for the winners.
