

PETROKIMIA GRESIK NAMED PIONEER OF ENGINEERING ORGANIZERS AND TOP PROFESSIONAL ENGINEERS

Number : 04/SP/PG/I/2023
Day / Date : Wednesday, January 25, 2023

Petrokimia Gresik, an Agro-industrial Solutions company and a holding member of the Pupuk Indonesia received an award from the Indonesian Engineers Association (PII) for its role as a "**Pioneer in the Implementation of Engineering and Professional Producer of Engineers**" in the Petrokimia category. The award was handed over directly by the Chairman of PII, Danis H. Sumadilaga to the President Director of Petrokimia Gresik, Dwi Satriyo Annurogo, on the sidelines of the PII National Leadership Meeting (Rapimnas) in Balikpapan, East Kalimantan.

Separately, Dwi Satriyo in Gresik, East Java, Wednesday (25/1) said that there are not many companies in the country that have received this award. Petrokimia Gresik is one of the companies in Indonesia that is considered PII and cares about the engineering profession. This award is proof of the company's commitment to establishing superior Human Resources (HR) in Indonesia.

"Human resource development is the Government's top priority in Indonesia's development strategy. In line with the program, Petrokimia Gresik builds synergies with stakeholders to develop talent competencies, including synergies with PII to organize engineering," said Dwi Satriyo.

Currently, Petrokimia Gresik has 94 Engineers with an Engineer Registration Certificate (STRI). STRI holders are professional engineers who have taken the competency test conducted by the PII Engineer Competency Certification Institute (LSKI). Based on Law Number 11 of 2014 concerning Engineering, all engineering and biological engineering graduates starting April 18, 2022, are required to use STRI even if they practice engineering.

"Through the role of these Engineers, Petrokimia Gresik can continue to innovate, turn challenges into opportunities, and realize ideals as Agro-industrial Solutions to maintain national food security and advance agriculture in the country. Engineers at Petrokimia Gresik also have a big role in realizing the company's future as a petrochemical industry center," said Dwi Satriyo.

Furthermore, Dwi Satriyo explained that to build talent, currently Petrokimia Gresik provides scholarships for employees, both in domestic and foreign universities. In addition, the company also encourages the improvement of employee competence through non-formal education in various fields.

"This commitment is also an effort by the company to organize a sustainable business. Therefore, this award will further motivate us to be active in encouraging the presence of a professional, certified engineer profession in their field," concluded Dwi Satriyo.
