[Petrokimia Gresik](#), an Agroindustry Solutions company and member of [Pupuk Indonesia](#) holding achieve the “Zero Accident” again from East Java Governor, Khofifah Indar Parawansa at the Commemorate Ceremony of Occupational Health and Safety (OHS) on 2022, in Surabaya, East Java, Wednesday (12/1). This achievement was handed over to Petrokimia Gresik due to achievements of 41.520.107 working hours without any accidents, started January 22, 2020 until October 31, 2021.

President Director of Petrokimia Gresik, Dwi Satriyo Annurogo conveyed that OHS is already become the culture of Petrokimia Gresik. The implementation of OHS is pivotal in Petrokimia Gresik considering Petrokimia Gresik is national vital object that can not stop producing subsidized fertilizer to keep national food security.

“Compliance with OHS at Petrokimia Gresik has become a common awareness to create a healthy and productive work environment,” said Dwi Satriyo.

Therefore, company can execute the instruction from government in producing and distribute subsidized fertilizer well, and able to increase the company competitiveness through fertilizer provision guarantee, especially during Pandemic Covid-19.

To ensure the safety and health of workers during the pandemic, the company has made a plan that includes the identification of work risks and the efforts that must be made to minimize these risks. This guide is used for handling when there is a positive confirmed case of Covid-19 at work.

As for mitigation to the risk of Covid-19 contagion, company has been vaccinating all employee 100%, then give them vitamin routinely, and always implement health protocol, as well as do screening periodically.

“Company has ensure the work place that free from contagion to minimizing the risk,” said Dwi Satriyo.

In terms of OHS services, contactless services principle is carried out by all staff of OHS. Some of innovations about OHS service system which previously carried out by offline then change to online through E-Posh development that cover service of safety induction online, vehicle commissioning online, online administration for SIMPER & SIM B3, online assessment of contractor pre-qualification documents, as well as Online Safety Officer competency.

Not only that, in each department there is Safety Representative (SR) who have responsible in supervision of OHS aspect at their work place such as unsafe condition and unsafe action then report it to OHS Department. The work performance achievement of OHS, OHS Programs and OHS issue in Department is discussed routinely at meeting of the Sub Committee for Guidance on Occupational Health and Safety at the compartment level and the company level.

Petrokimia Gresik also makes a number of programs that encourage every employee to always carry out CHL (Clean and Healthy Lifestyle) and diligently exercise, through the Viral 500K program which is carried out throughout the year.

Dwi Satriyo emphasized that those efforts are a real commitment from management and all employee of Petrokimia Gresik in implementing Occupational Health and Safety Management System in company.

“The optimal work performance of OHS become one of aspect that bring Petrokimia Gresik achieve Propernas Gold for the first time,” said Dwi Satriyo.

As known, at the end of the year 2021 Petrokimia Gresik achieved Gold predicate for the first time in Propernas or National Company Performance Rating Program in the Environmental Sector from the Ministry of Environment and Forestry of the Republic of Indonesia.

Meanwhile, Vice Regent of Gresik, Aminatun Habibah appreciate all company in Gresik which has been implement the regulation of work safety and keep the health in work place. She also hopes that on 2022 there will be more company in Gresik Regency that can follow this award.

“In terms of preventing Covid-19, for example, the Gresik Regency government ensures that operating companies prepare facilities and comply with health protocols,” he said.
