

**SUPPORT GOVERNMENT CREATE SUPERIOR HR
PETROKIMIA GRESIK LAUNCH DIGITAL LEARNING CENTER**

Number : 53/SP/PG/IX/2021
Day / Date : Tuesday, 14th of September 2021
Place : Gresik

[Petrokimia Gresik](#), an Agroindustry Solution company and a member of SOE [Pupuk Indonesia](#) launched Digital Learning Center (DLC) as a step to create superior human resources. The launch was carried out by the Assistant Deputy for Food and Fertilizer Industry (Asdep IPP) of the Indonesian Ministry of State-Owned Enterprises, Zuryati Simbolon and the President Director of Petrokimia Gresik, Dwi Satriyo Annurogo, and witnessed by the Business Transformation, Director of Pupuk Indonesia, Panji Winanteya Ruky, in Gresik, East Java Tuesday (14 /9).

Zuryati conveyed that Digital Learning Center of Petrokimia Gresik is a real proof from 5 (five) strategies that has been established by SOE Minister of Republic of Indonesia, Erick Thohir, that is leadership in technology. She also appreciated the digital transformation done by Petrokimia Gresik, because it is not only a solution, but also purely the work of the nation's children.

“SOE must be able to increase the work performance through technology leadership, digitalization, and industry 4.0. Digital Learning Center is its implementation,” said Zuryati.

Meanwhile, President Director of Petrokimia Gresik, Dwi Satriyo Annurogo explained that digital innovation that has been planned in this 2020 is result from a synergy between SOE Ministry, through Pupuk Indonesia & Petrokimia Gresik, and Industry Ministry as an effort to improve the Indonesian Workforces competitiveness.

The Petrokimia Gresik Digital Learning Center was created not only to accelerate employee competency mastery, but also to become a means for internship students from various universities in Indonesia to prepare competent and certified prospective workers to face global competition.

“During this pandemic, there were a lot of college students struggling find internship because many companies close internship program to prevent the Covid-19 contagion. Petrokimia Gresik is the answer of this problem,” said Dwi Satriyo.

“During the pandemic, many students had difficulty finding a place to practice because many companies closed internship programs to prevent the spread of Covid-19. The Petrokimia Gresik Digital Learning Center is the answer to this problem,” said Dwi Satriyo.

With the presence of this Digital Learning Center, college students are not have to come to the factory to do industrial work practice, because they can get real internship’s experience through facilities in Petrokimia Gresik Digital Learning Center that has 4 platforms.

The platforms are Enterprise University (platform for study and explore all competencies through Video Based Learning, Digital Handout, and online test, Assignment or Coaching); Virtual Reality (Interactive Learning platform use virtual reality technology to provide a level of understanding of material designed with real conditions); Augmented Reality (a combination between real life and digital information which aimed to clarify the understanding as user); and 360 Plant Facility Learning (technology that allows users to visit places virtually).

“Petrokimia Gresik become the first SOE that use Virtual Reality for digital learning method for internship students or employees,” said Dwi Satriyo.

For Petrokimia Gresik, facility in Digital Learning Center also ease employee can study flexibly not dependent on operational condition in work unit. He also hopes that Digital Learning Center of Petrokimia Gresik able to be a catalyst for company for always grow and develop.

Digital Learning Center of Petrokimia Gresik is expected able to be a medium for employee of Petrokimia Gresik or external stakeholder to interact, exchange ideas, and also prepare a means of coaching between mentors and mentees.

“The rapidity of adapting to digital transformation is non-negotiable, especially in the midst of this pandemic. In the future, Petrokimia Gresik will continue to make improvements to the innovations that have been made so that the benefits can be felt by more parties, as well as carry out digital transformations in other fields,” concluded Dwi Satriyo.
