

**PETROKIMIA GRESIK AUXILIARY 1,110 TREE SEEDLINGS
TO REFORESTING THE FOREST & GRESIK CITY PARK**

Number : 47/SP/PG/VIII/2022
Day / Date : Friday, August 5, 2022

Petrokimia Gresik's commitment to the environment was again demonstrated through the assistance of 1,110 tree seedlings for greening Gresik's forests and city parks. Symbolically, the assistance was handed over by the VP of *Corporate Social Response (CSR)* of Petrokimia Gresik, Muhammad Ihwan together with the VP of Environmental Petrokimia Gresik, Liliek Harmianto, to the Acting Head of the Environmental Service (DLH) of Gresik Regency, Ketut Pratikno, Thursday (4/8).

Separately, the President Director of Petrokimia Gresik, Dwi Satriyo Annurogo said that to manage the environment in Gresik, Petrokimia Gresik always coordinates and is ready to collaborate with the Gresik Regency Government, so that its programs are in line with regional policies.

"One of them is the assistance of tree seedlings, which is a real action by Petrokimia Gresik in responding to local government programs to create a city that is pleasant, nourishing, and safe from disastrous risk," said Dwi Satriyo.

The thousands of tree seedlings handed over consisted of gold shower seedlings (200 trees), red shoots (50 trees), dollars (10 trees), red andang (200 trees), lantana (400 trees), klengkeng (50 trees), guava crystal (100 trees) and avocado (100 trees).

Acting Head of DLH Gresik Regency, Ketut Pratikno, revealed that the tree seedling assistance from Petrokimia Gresik will be partially acclimatized and developed for further breeding to produce more seedlings to be planted in forests or urban parks. Meanwhile, people can get fruit plant seeds, which will be planted directly in the urban forest.

"We have a lot of land that need to be planted. Not to mention that there are many requests for seed assistance from villages, especially those who are developing village tourism. Hopefully, this assistance from Petrokimia Gresik can inspire other companies," he said.

Furthermore, Ketut Pratikno also appreciated the commitment and concern that Petrokimia Gresik has shown so far. He hopes that in the future collaboration between the local government and Petrokimia Gresik can continue to provide benefits to the community, through the provision of facilities and infrastructure in the environmental sector.

PRESS RELEASE

For information, apart from the assistance of these tree seedlings, Petrokimia Gresik also actively contributes to greening in Gresik Regency through mangrove land restoration programs in Mengare, Lamong River, to Ujung Pangkah. In addition, in the near future, Petrokimia Gresik will also return to planting mangroves to commemorate the company's *golden anniversary*.
