

PRESS RELEASE

PETROKIMIA GRESIK DISTRIBUTES 500 PACKAGES OF NECESSITIES FOR FLOOD VICTIMS IN GRESIK

Number: 85/SP/PG/X/2022

Day/Date: Saturday, October 29, 2022

Petrokimia Gresik, through its Social and Environmental Responsibility program "Petrokimia Gresik Cares and Shares," distributed 500 packages of necessities to flood victims in Cermen Village, Kedamean Subdistrict, Gresik Regency. The aid was handed over through the Regional Disaster Management Agency (BPBD) of Gresik Regency on Thursday afternoon for further distribution to the victims.

"We have coordinated with BPBD Gresik to ensure that the type and amount of aid given are accurately targeted and meet the needs of the victims," said Dwi Satriyo Annurogo, President Director of Petrokimia Gresik, separately on Friday.

The 500 packages of necessities distributed contained rice, cooking oil, sugar, and instant noodles. The aid will be distributed to Cermen and Medeo hamlets in Cermen Village, which were the most severely affected areas due to the breach of the Lamong River dyke.

Dwi Satriyo added that as a company with operations centered in Gresik Regency, Petrokimia Gresik is committed to always being present to help the government in handling the flood disaster that occurs in Gresik.

As is known, floods submerged several villages in the southern area of Gresik Regency due to the overflow of the Lamong River. The two hamlets that received aid were the areas with the worst flooding, causing victims to evacuate.

"We hope that this TJSL aid can alleviate the burden of our flood-affected brothers and sisters and that the presence of Petrokimia Gresik can be felt more by the community," he said.

Previously, Petrokimia Gresik, along with the National BUMN Disaster Response Task Force in East Java, had also provided 2,500 packages of necessities to flood and landslide victims in southern East Java. Specifically, 1,500 packages of necessities were for flood and landslide victims in Malang Regency, while every 500 packages of necessities were for Blitar Regency and Trenggalek Regency.

"Petrokimia Gresik is committed to always being responsive to any condition that occurs in East Java in general and Gresik Regency in particular. Hopefully, the floods that have affected our brothers and sisters in various regions will soon recede and not come again, so that the community can return to their activities as usual," he concluded.
