

**PETROKIMIA GRESIK DISTRIBUTES BASIC FOOD AID
FOR THE FLOOD DISASTER IN GRESIK**

Number : 12/SP/PG/II/2023
Day / Date : Saturday, February 25, 2023

Petrokimia Gresik, through the Social and Environmental Responsibility (TJSL) program "Petrokimia Gresik Peduli dan Berbagi," provided assistance for 750 food packages to be distributed at several public kitchen posts in the Gresik Regency flood disaster. In addition, the company also assisted 2,000 sacks for the construction of emergency embankments. The aid was symbolically handed over by the company's representative to the Regent of Gresik, Fandi Akhmad Yani at the Gresik Regent's Office Yard, Jumat (24/2).

Separately, the President Director of Petrokimia Gresik, Dwi Satriyo Annurogo said that Petrokimia Gresik, which currently has the mandate as coordinator of the National Disaster Response Task Force for SOEs in the East Java Region, must be present amid the East Java community, especially during disasters such as floods in Gresik.

"Petrokimia Gresik in its business operations does not only produce quality products as Agro-industrial Solutions. Petrokimia Gresik, who is also a member of the holding, must be felt by the community," said Dwi Satriyo.

The basic food aid distributed in each package contains 3 kilograms of rice, 1 liter of oil, 1 kilogram of sugar, and 5 packs of instant noodles. Regarding this assistance, Petrokimia Gresik has coordinated with BPBD Gresik so that the type of assistance provided is right on target and according to the needs of the victims.

"We hope that this TJSL assistance can ease the burden on our brothers and sisters affected by floods. We distribute this assistance through BPBD to be distributed to several public kitchens such as at the Cerme Shelter Post, Gadingwatu Village, Omah Indah Menganti Housing, and Taman Gading Menganti Housing," said Dwi Satriyo.

He added, as a company whose operations are centered in Gresik Regency, Petrokimia Gresik is committed to always being present to help the government in handling flood disasters that occur in Gresik. As is known, floods submerged the few subdistricts in Gresik Regency due to broken embankments and overflowing rivers. Among others, Driyorejo, Menganti, Benjeng, Cerme and Balong panggang districts.

"Petrochemical Gresik is committed to always being responsive to any conditions that occur in East Java in general and Gresik Regency in particular. Hopefully, the floods that hit our brothers and sisters will recede soon, and the community can return to their activities as before," he concluded.
