[Petrokimia Gresik](#) is an Agroindustry Solutions company and a member of [Pupuk Indonesia](#) distributed aid of Corporate Social Responsibility (CSR) in the form of 11.812 immune packages, total Rp1,2 billion for community at 9 villages around the company. The aid was symbolically handed over by President Director of Petrokimia Gresik, Dwi Satriyo Annurogo to all Village Heads who represents their villages at Wisma Kebomas Petrokimia Gresik, East Java, Friday (6/8).

Dwi Satriyo explained that Petrokimia Gresik as Coordinator of the East Java SOEs National Disaster Response Task Force always commit to support government for acceleration of Covid-19 recovery in Indonesia, specifically East Java. Therefore, this aid was distributed considering helping community around company during Enforcement of Restrictions on Community Activities (ERCA).

“During this restriction, they must always maintain immunity to minimize the contagion of Covid-19. For this reason, this CSR’s aid is a form of Petrokimia Gresik's concern for the community around the company,” said Dwi Satriyo.

The immune packages that were given contain rice, medical mask, and vitamin. The aid was then distributed to 11,812 Heads of Families (families) in Roomo Village (1,200 families), Tlogopojok Village (2,177 families), Lumpur Village (1,869 families), Karangturi Village (1,372 families), Karangpoh Village (977 families), Karangpoh Village (977 families) Sukorame (1,800 families), Ngipik Village (523 families), Kroman Village (1,350 families) and Sukorejo Village (544 families).

“There must be a lot of community affected financially. Even though, this is not fulfilled all family’s needs, I hope, at least, this aid can ease their burden during ERCA,” said Dwi Satriyo.

Furthermore, Dwi Satriyo that this aid is not only to fulfilled the daily needs, but also socializing mask used. If they, comply to wear mask, then the contagion can be controlled.

He also invited all parties not to be careless and continue to comply with health protocols in daily activities and business operations so that the spread of Covid-19 can be further minimized.

“Nevertheless the Covid-19 vaccination is already injected to community in East Java especially, Gresik, we all must keep increase self-awareness, accompanied with patience and discipline in complying 5M health protocol to reduce the Covid-19 contagion,” said he.

Dwi Satriyo emphasized that Petrokimia Gresik's commitment helping the government fight Covid 19, especially in East Java, would continue to be improved. For this reason, on the same occasion, he also hopes for support and prayers from the community regarding the plan for reactivation of the Air Separation Plant (ASP) which will produce 23 tons of oxygen per day. This factory will supply medical oxygen needs for hospitals in Gresik and East Java in particular, and outside Java in general.

“We are optimist that Indonesia will quit from this pandemic if all parties keep supporting each other and cooperate in Covid-19 recovery,” said he.

Rusdiyanto, The Village Head of Roomo appreciated Petrokimia Gresik's initiative. He revealed that the immune package provided by the company to Roomo residents during the ERCA period was very appropriate to help residents deal with the Covid-19 pandemic.

"We hope Petrokimia Gresik become more success, so that it will in line with commitment of management, when the company is more successful, the greater the benefits provided for Community," said Rusdiyanto.

In the other side, The Village Head of Tlogopjok, Mohammad Iqbal conveyed that this aid is really useful, especially for people who can't afford it, and affected economically during this pandemic, such as get fired from job. He also appreciates Petrokimia Gresik's cares which always help surrounding community through any CSR program.

"These aids can help community to fulfill the daily needs and maintain their immune to reduce the risk of Covid 19 contagion." Said Iqbal.
