

**SUPPORTS GOVERNMENT FOR ACCELERATE VACCINATION
PETROKIMIA GRESIK HELD VACCINATION OF “GOTONG ROYONG”
FOR 3,179 PARTICIPANTS**

No : 41/SP/PG/VII/2021

Date : 26 July 2021

[Petrokimia Gresik](#) is an Agroindustry Solutions company and a member of [Pupuk Indonesia](#) started the “Gotong Royong” Vaccination (GRV) program for employees and their families at Petrokimia Gresik, Monday (26/7). The GRV, which is planned to last for 4 (four) weeks, will be held at the Petrokimia Gresik Education and Training Auditorium.

President Director of Petrokimia Gresik, Dwi Satriyo Annurogo explained that the Petrokimia Gresik GRV program is a follow-up to the direction of Pupuk Indonesia as the holding company which is in line with the Minister of Health Regulation Number 10 of 2021, regarding the implementation of vaccinations in the context of the Covid-19 pandemic coverage.

"Through this program, the company wants to help the government accelerate the coverage of Covid-19 vaccinations, so that can build herd immunity," said Dwi Satriyo.

In the GRV program, Petrokimia Gresik cooperates with the Petrokimia Gresik Hospital as a vaccinator with a target of 3,179 employees and families in Petrokimia Gresik's environment that have not had time to take part in the vaccine organized by the Ministry of SOEs.

Dwi Satriyo emphasized that the type of vaccine used in the GRV program is different from the vaccine used by the government for the free vaccination program. The type of vaccine used is the Sinopharm vaccine which has received approval based on clinical trials.

"This “Gotong Royong” Vaccination Program will not interfere with the free vaccinations being run by the government, it will actually help accelerate the reach of the government's target of 1 million vaccines per day," he said.

Furthermore, Dwi Satriyo explained that the implementation of the GRV program has fulfilled the requirements as a vaccination service post and has referred to service standards and standard operating procedures in accordance with technical instructions for vaccination implementation.

"We have also coordinated with the Gresik District Health Office, so that vaccine administration data remains integrated with government data," he said.

Going forward, Petrokimia Gresik will hold Batch II of the “Gotong Royong” Vaccination Program which will be attended by employees and families of Petrokimia Gresik's Subsidiaries.

"In principle, Petrokimia Gresik always supports the government's efforts, which aim to get all of us out of this pandemic immediately," he said.
