

**IMPLEMENT DIGITAL LEARNING  
PETROKIMIA OPEN AGAIN THE INTERNSHIP PROGRAM COLLEAGUE STUDENT**

Number : 60/SP/PG/VIII/2020  
Day & Date : Thursday, 6 August 2020  
Place : Gresik  
Event : The opening the internship program through Digital Learning

Petrokimia Gresik is Agroindustry Solutions company and holding member of Pupuk Indonesia, has re-opened an internship program or industrial work practice for colleague students starting Monday (3/8) using digital learning methods as a form of adjustment during the New Habit Adaptation period.

President Director of Petrokimia Gresik, Rahmad Pribadi conveyed that Petrokimia Gresik was the first SOE that using digital learning method for internship, both regular and Certified Student Internship Program (CSIP) which is re-opened after it was cancelled in March 2020 ago.

“This digital internship model is an innovation of Petrokimia Gresik to continue in carrying out its role in supporting the government to produce superior human resources, but always pay attention to health protocols to prevent the spread of Covid-19, "said Rahmad.

Digital internship became a solution from the worries of thousand students who had obligation Semester Credit Unit practical work from campus but it is difficult to find companies that open internship programs due to the outbreak.

Even though it is different with previous learning model, Students will get equal competence and still get competency certificates (especially for CSIP participants) for those who graduate to take part in the digital-based internship program at Petrokimia Gresik as a provision to find work later.

Bring theme “Petrokimia Gresik Learning Experience” students will do the blended digital learning program which make the student possibly to get knowledge and skill in the internship period.

Students can learn the business process with three methods, namely Online Classroom with the expert from Petrokimia Gresik, Self Learning through Enterprise University application, and Customized Project Learning.

The "Enterprise University" digital platform itself is prepared with the latest features that allow students to study according to the competencies required through various learning content such as Video Based Learning, Digital Handouts and also online exams. In fact, students can also do plant tours without having to come to the factory, namely through the 360° Digital Plant Tour Learning application.

“Students will get an amazing experience when learn with Petrokimia Gresik. Through complete digital platform and experienced expert guidance, it is hoped that able to give knowledge and competency needed during internship,” said Rahmad.

Rahmad emphasized that this program was a form of Petrokimia Gresik's commitment in continuing the previous programs of the Ministry of SOE and the Ministry of Industry, namely Link and Match for SMK students, vocational teacher internships and Diploma which had been running for three years (2017-2020) with a total number of participants as many as 1,053 people.

Last, for students who are interest to have an internship experience in Petrokimia Gresik, they can register through [prakerin.petrokimia-gresik.com](http://prakerin.petrokimia-gresik.com)

"Hopefully this breakthrough can become a spirit for students, colleague students, tertiary institutions, schools and related stakeholders to be optimistic again to produce superior human resources in the country even amid this pandemic situation," said Rahmad.
