

**PETROKIMIA GRESIK SUPPORT THE ACCELERATION OF GROW SEASON PROGRAM BY EAST JAVA GOVERNOR**

Number : 35/SP/PG/VI/2020  
Day & Date : Thursday, 4 June 2020  
Place : Gresik

Petrokimia Gresik is Agroindustry Solutions company and holding member of Pupuk Indonesia ready to support the program from East Java Governor, Khofifah Indar Parawansa to accelerate the grow season of rice during dry season at 6 (six) region of national rice barns in East Java.

The sixth regions are Bojonegoro, Jember, Ngawi, Nganjuk, Tuban, and Tulungagung District. The acceleration of grow season which is referred to by East Java Governor, Khofifah Indar Parawansa must be supported by the preparation of pre-harvest equipment, distribution of seeds and distribution of subsidized fertilizer to farmers.

President Director of Petrokimia Gresik, Rahmad Pribadi explained that the effort in supporting thus acceleration program, his company ready to provide comprehensive escort by ensuring the availability of stock and distribution of subsidized fertilizers, until presenting other supporting services and products.

The stock of subsidized fertilizer for East Java Province until Thursday (4/6) as many as 137,219 tons, or double from government's minimum requirement which is 64,660 tons. This stock consists of Urea 28,322 tons, ZA 38,257 tons, SP36 25,992 tons, NPK Phonska 31,522 tons, and Petroganik 13,126 tons.

"For the distribution, we adjust the allocation of subsidized fertilizers that have been set in the local Agriculture Service Decree," Rahmad said, Wednesday (3/6).

The distribution of thus fertilizer was escorted by Regional Sales Staff of Petrokimia Gresik whose spread in East Java. They always coordinate with Agriculture Officials, field officer, farmers group, and local police.

"In the distribution, company hold in 6 Rights Principal, they are Right Cost, Right Place, Right Amount, Right Quality, Right Type, Right Time," explained Rahmad.

Therefore, emphasized to all authorized distributors and stalls to always comply with all regulations. As well as not being involved in diversion, hoarding, or selling above the Highest Retail Price.

The list of Highest Retail Price of subsidized fertilizer is Urea fertilizer Rp90 thousand per sack (50 kg) or Rp1,800 per kg, NPK Phonska fertilizer Rp115 thousand per sack (50 kg) or Rp2,300 per kg, Petroganic organic fertilizer Rp20 thousand per sack (40 kg) or Rp500 per kg, fertilizer ZA Rp70 thousand per bag (50kg) or Rp1,400 per kg, and SP-36 fertilizer Rp100 thousand per sack (50kg) or Rp2,000 per kg.

"Petrokimia Gresik will not hesitate to stop the distribution cooperation if the authorized distributor or stalls who proven have made a mistake," Rahmad said.

Regarding fertilization patterns, Rahmad urged farmers to follow the general recommendations of 5: 3: 2 balanced fertilization, namely 500 kg of Petroganic organic fertilizer, 300 kg of NPK Phonska or Phonska Plus fertilizer, and 200 kg of urea fertilizer. This combination of organic and non-organic fertilizers, in addition to maintaining agriculture

sustainability, it has also been proven to be able to increase the productivity of 1-2 tons of dry rice for each hectare of rice.

"This balanced fertilizations is also a solution of fertilizer use which usually excessive by Farmers. So that the limited allocation of subsidized fertilizer can be more effective and efficient," Rahmad said.

In addition to fulfill the responsibility in providing subsidized fertilizer, Petrokimia Gresik also providing non-subsidized fertilizer. This is a solution for farmers whose the fertizer need were not been allocated in subsidized scheme.

Beside fertilization, Petrokimia Gresik also provide pest control product for farmers through subsidiary company (Petrokimia Kayaku and Petrosida Gresik). With balanced fertilization and right pest control use, then the productivity of rice will increase.

No less important, Petrokimia Gresik also has a soil test car service for farmers to find out the condition of their agriculture land in each area so that they can provide appropriate fertilizer recommendations.

"Farmers only need to bring soil samples to the soil test car officer. It's free. Farmers can ask for the presence of the soil test car through Regional Sales Staff or our authorized stalls and distributor," Rahmad said.

Rahmad mentioned that thus service is a real support from Petrokimia Gresik as Agroindustry Solution company for sustainability agriculture.

"Hopefully a variety of Petrokimia Gresik's solutive efforts can support the East Java Governor's planting season acceleration program so that it can maintain national food stocks amid a pandemic," concluded Rahmad.
