

National Occupational Health and Safety Month 2020
**PETROKIMIA GRESIK HELD
EMERGENCY RESPONSE COMPETITION**

Number : 07/SP/PG/II/2020
Day & Date : Monday, February 10, 2020
Place : Petrokimia Gresik Fire Ground
Event : The opening of 2020 National OHS Month Competition

Petrokimia Gresik is a company of agroindustry solution and the holding member of Pupuk Indonesia, held Emergency Response Competition (ERC) or emergency handling competition in commemoration of the 2020 National Occupational Health and Safety (OHS) in Gresik, Monday (10/2).

Production Director of Petrokimia Gresik, I Ketut Rusnaya conveyed that except employees, this ERC also involving a subsidiary, Petrokimia Gresik's Foundation, companies around, partners, and contractors who are currently working at Petrokimia Gresik.

"The number of participants reached 72 teams or involved around 648 personnel, or a slight increase compared to last year," said Ketut.

This competition is an effort of Petrokimia Gresik's Management to see the readiness and skills of employees, subsidiary companies and contractors facing emergency, in order to prevent loss of human resources and property in Petrokimia Gresik.

This skill is very important, considering that Petrokimia Gresik is one of the National Vital Objects (Obvitnas) which has 31 factories with an annual production capacity of 8.9 million tons (fertilizer and non-fertilizer) and occupies an area of more than 450 hectares.

In addition, as an agroindustry solution company for sustainable agriculture, Petrokimia Gresik also has quite complete services and products. Starting from seeds, fertilizers with various formulas, pest control, probiotics, decomposers, and so on.

"Therefore the OHS aspect becomes very important in running a business or industry with high complexity such as in Petrokimia Gresik," explained Ketut

In addition to ERC, the National OHS Month commemoration in Petrokimia Gresik was also enlivened with various competitions such as photography, digital posters, and safety ideas. All of them took the theme of OHS.

"In addition, in this series of programs, we also hold a special OHS competition for rural and urban communities around the company," Ketut added.

This program is a form of company active participation in realizing the independence of OHS culture of Indonesian people. It is expected that all employees, partners, work partners, and the surrounding community have sufficient knowledge and skills in dealing with emergencies.

"We hope all the potential hazards in the surrounding environment can really be controlled and if an emergency occurs, we can handle it and prevent the greater risk," said Ketut.
