

**PETROKIMIA GRESIK INAUGURATING
THE "RISMAGOR" AND COVID-19 TESTING CENTER**

Number : 49/SP/PG/V/II/2020
Day & Date : Wednesday, 15 July 2020
Place : Gresik
Event : The inauguration of Tri Dharma isolation room & Covid-19 Testing Center

Today Petrokimia Gresik is Agroindustry Solutions Company and holding member of Pupuk Indonesia was inaugurating the facilities of GOR isolation room or known as "Rismagor" Tri Dharma and Petrokimia Gresik Covid-19 Testing Center to give service for all family of Petrokimia Gresik group, Wednesday (15/7).

President Director of Petrokimia Gresik, Rahmad Pribadi explained that these facilities were build for anticipation in handing the increase of Covid-19 positive case in Surabaya city, including Gresik. These facilities will be operated by Petrokimia Gresik Hospital, which is one of the referral hospitals in Gresik District.

"This is our effort to increase the capacity and quality of Petrokimia Gresik Hospital services in handling patients, especially from the Petrokimia Gresik family," Rahmad said through a virtual conference in Jakarta.

Rahmad also explained that even though the number of positive cases in Gresik and East Java was increase, however in last five day the number of recovery patients in East Java reached 6.958 people (on 13 July 2020) or recovery rate of 41.26% of the total patients, which is the highest cure rate nationally.

Rahmad also explained that Rismagor is consists of 40 rooms with total 80 beds. Beside that, it is completed with good facilities, such as internet connection, mobile x-ray, mobile swab and laboratories, online consultation, specialist doctor visit, delivery medicine, ambulance, 24 hours nurse and doctor supervision, bath, wash, and toilet, also other supporting facilities.

While Covid-19 Testing Center will be operated to do periodically rapid test for employee and family of Petrokimia Gresik group.

"So that our efforts can more or less ease the task of the local government," Rahmad said.

Rahmad conveyed that Petrokimia Gresik always implements health protocols according to government recommendations. Starting from the enactment of Work From Home (WFH), periodic spraying of workspace with disinfectant, keeping a distance, wearing masks, washing hands, and campaigning health protocols to all stakeholders.

Rahmad hopes that the company's efforts must be accompanied by the awareness of all Petrokimia Gresik employees in implementing health protocols. Not only in the workplace, but also in family and other environments.

This step was very important for Petrokimia Gresik. Because the company is a national vital object that is demanded to be able to support food security, especially through the provision of subsidized fertilizers. The national allocation of subsidized fertilizers in 2020 is 7.9 million tons. Of this amount, Petrokimia Gresik has the obligation to distribute 4.7 million tons, and 2.57 million tons (54%) have been distributed.

"We must continue to operate and continue to raise the optimism of employees, distributors, kiosks, and farmers in various regions, to continue to support the agriculture sector in order to keep producing," concluded Rahmad.
