

Caring for the Environment  
**PETROKIMIA GRESIK IS RECOGNIZED**  
**AS "THE BEST INDONESIA GREEN AWARDS (IGA) 2021"**

Number : 23/SP/PG/IV/2021  
Day / Date : Friday, April 9, 2021  
Place : Jakarta  
Event : The Awarding of Indonesia Green Awards (IGA) 2021.

Petrokimia Gresik is an Agroindustry Solution company and member of the [Pupuk Indonesia](#) holding company was achieved "**The Best IGA 2021**" after successfully winning 7 (seven) awards at the same time in the environmental sector at the 2021 Indonesia Green Awards (IGA) national event, in Jakarta, Wednesday (8/4) .

Operation and Production Director of Petrokimia Gresik, Digna Jatningsih, revealed that this award is proof that environmental management and production activities in the company are running well and efficiently, and can provide benefits to the empowerment of the surrounding community.

"This achievement has increased from last year which only received 4 categories. This is a form of Petrokimia Gresik's commitment to be an environmentally friendly company and support sustainable agriculture, "said Digna.

This is important considering Petrokimia Gresik has a fertilizer and non-fertilizer production capacity of 8.9 million tons per year, and stands on an area of more than 450 hectares, which is directly adjacent to residential areas.

Digna said that concern for the environment for Petrokimia Gresik is an effort to increase competitiveness. Because commitment to the environment has become a demand along with the increasing awareness of the market for environmental sustainability and sustainable development.

Furthermore, Digna revealed that good environmental management has also led Petrokimia Gresik to achieve the Green predicate for two consecutive times in the Company Performance Rating Program (Proper) from the Ministry of Environment and Forestry of Indonesia Republic in 2019 and 2020.

In the IGA 2021 event, the judging team is chaired by the Chairman of The La Tofi School of CSR, and consists of Prof. Ibnu Hamad, Professor of Communications at the University of Indonesia; and Hizbullah Arief, Director of the Green Advocacy Network (Hijauku.com).

This, Petrokimia Gresik won the award for the program :

1. "Kali Lamong Mangrove Ecotourism" category "Nature Conservation Tourism Development";
2. "Utilization and Recycling of Plastic Waste in Collaboration with the Maduran United Waste Bank" for the category of "Plastic Waste Handling";
3. "Application of Biopores in the Petrokimia Gresik Environment" category "Saving Water Resources";

4. "Energy Optimization, Ammonia Vapor Feeding in ZA I and ZA III Process Plants" for the category "Engineering Technology in Saving Energy/Use of New and Renewable Energy";
5. "Petrokimia Gresik City Forest " for the category "Developing Biodiversity";
6. "Reduction of SO2 Emission Burden at Sulfuric Acid Plant" category in "Pioneering Pollution Prevention", and last is;
7. "Utilization of Leaves and Household Waste Organic Waste to Become Petrokimia Gresik Compost" for the category "Developing Integrated Waste Management".

Finally, Digna stated that Petrokimia Gresik is committed to maintaining national food security by continuing to prioritize the aspects of sustainability of agriculture.
