

## Cross-Curricular Topic Assessment Grid : Dinosaurs : Year 1/2

D	inosaurs								
G	Group: Year: Term:								
	History								
<u>_</u>	Do children understand that people haven't always known about dinosaurs?								
Lesson 1	Do children know some early theories about fossils?								
Les	Can children explain some of the ways in which life was different in Georgian Britain to today?								
n 2	Do children know who Mary Anning was and when she lived?								
Lesson	Do children know the main events of Mary Anning's life?								
_ e	Can children sequence the events of her life correctly?								
در	Can children recall the main events of Mary Anning's life?								
Lesson	Do children understand why Mary Anning is important?								
Ë	Can children explain that impact Mary Anning had on the history of palaeontology?								
	English								
7	Can the children identify the key features of persuasive writing?								
Lesson 1	Can the children plan persuasive writing with key features?								
Ë	Can the children write a piece of pe <mark>rsu</mark> asive writing with key features?								
7	Can the chi <mark>ldren id</mark> entify the key fe <mark>ature</mark> s of persu <mark>asive</mark> writing?								
_	Can the children write persuasively using the key language features?								
Lesson	Can the children evaluate their own and each other's persuasive writing in relation to the key language features?					3			
<del>د</del> ۳	Can the children identify the key features of descriptive writing?								
Lesson	Can the children develop interesting expanded noun phrases and similes?								
Le	Can the children produce a detailed setting description with key features?

D	Dinosaurs									
G	roup: Year: Term:									
	Science									
-	Can children sort dinosaurs by their features?									
Lesson	Can children explain their sorting criteria?									
Le	Can children think of their own sorting criteria?									
2	Can children talk about the stages of a dinosaur life cycle?									
Lesson	Can children order the stages of a dinosaur life cycle?									
Le	Can children compare different life cycles?									
<u>د</u>	Do children know what questions are?									
Lesson	Can children think of questions related to their source?									
គ	Can children answer questions using a source?									
	Geography									
-	Can the children name and locate the four countries that make up the UK and their capital cities?									
Lesson 1	Can the chil <mark>dren n</mark> ame and locate t <mark>he s</mark> eas around the UK?									
Le	Can the children name and locate s <mark>ome</mark> key places in the UK for finding / seeing dinosaur bones?									
7	Can the children name the four compass directions?	- 1				E	3			
Lesson	Can the children use the four compass directions to describe a route on a map?									
Leé	Can the children follow a route on a map using the four compass directions?

Group: Year: Term:		L												
DT														
Can the children identify	examples of levers and pivoting	points?												
Can the children produce	e a labelled design for a moving	picture?												
Can the children make a	simple lever using card and a sp	lit pin?												
Can the children make a	Can the children make a simple prediction?													
Can the children produce a labelled design for a pop-up picture?														
Can the children make a simple pop-up mechanism by folding card?														
	PE													
Can children think of a st	tationary movement to represent	a dinosaur?												
Can children think of a tr	Can children think of a travelling movement to represent a dinosaur?													
Can children perform the	eir movements?													
Can children move at dif	ferent levels around the ro <mark>om?</mark>													
Are children able to link a	an on-the- <mark>spot</mark> movement with a	travelling movement?												
Are children able to link i	Are children able to link movements on different levels?													
	PSHE													
Can children recognise w	vhat worries feel like?													
Can children talk about v	worries?													
Can children use strategies	to help them co-and self-regulate wh	nen they feel worried?												
	Can the children identify Can the children produce Can the children make a Can the children make a Can the children produce Can the children produce Can the children make a  Can the children make a  Can children think of a st Can children think of a tr Can children perform the Can children move at dif Are children able to link Are children able to link  Can children recognise v Can children talk about v	Can the children identify examples of levers and pivoting Can the children produce a labelled design for a moving Can the children make a simple lever using card and a sp Can the children make a simple prediction?  Can the children produce a labelled design for a pop-up Can the children produce a labelled design for a pop-up Can the children make a simple pop-up mechanism by for PE  Can children think of a stationary movement to represent Can children think of a travelling movement to represent Can children perform their movements?  Can children move at different levels around the room?  Are children able to link an on-the-spot movement with a Are children able to link movements on different levels?  PSHE  Can children recognise what worries feel like?  Can children talk about worries?	Term:  DT  Can the children identify examples of levers and pivoting points?  Can the children produce a labelled design for a moving picture?  Can the children make a simple lever using card and a split pin?  Can the children make a simple prediction?  Can the children produce a labelled design for a pop-up picture?  Can the children make a simple pop-up mechanism by folding card?  PE  Can children think of a stationary movement to represent a dinosaur?  Can children think of a travelling movement to represent a dinosaur?  Can children perform their movements?  Can children move at different levels around the room?  Are children able to link an on-the-spot movement with a travelling movement?  Are children able to link movements on different levels?  PSHE  Can children recognise what worries feel like?	Term:  DT  Can the children identify examples of levers and pivoting points? Can the children produce a labelled design for a moving picture? Can the children make a simple lever using card and a split pin? Can the children make a simple prediction? Can the children make a simple prediction? Can the children produce a labelled design for a pop-up picture? Can the children make a simple pop-up mechanism by folding card?  PE  Can children think of a stationary movement to represent a dinosaur? Can children think of a travelling movement to represent a dinosaur? Can children perform their movements? Can children move at different levels around the room? Are children able to link an on-the-spot movement with a travelling movement? Are children able to link movements on different levels?  PSHE  Can children recognise what worries feel like? Can children talk about worries?	Term:  DT  Can the children identify examples of levers and pivoting points? Can the children produce a labelled design for a moving picture? Can the children make a simple lever using card and a split pin? Can the children make a simple prediction? Can the children produce a labelled design for a pop-up picture? Can the children produce a labelled design for a pop-up picture? Can the children make a simple pop-up mechanism by folding card?  PE  Can children think of a stationary movement to represent a dinosaur? Can children think of a travelling movement to represent a dinosaur? Can children perform their movements? Can children move at different levels around the room? Are children able to link an on-the-spot movement with a travelling movement? Are children able to link movements on different levels?  PSHE  Can children talk about worries feel like? Can children talk about worries?	Term:  DT  Can the children identify examples of levers and pivoting points?  Can the children produce a labelled design for a moving picture?  Can the children make a simple lever using card and a split pin?  Can the children make a simple prediction?  Can the children produce a labelled design for a pop-up picture?  Can the children produce a labelled design for a pop-up picture?  Can the children make a simple pop-up mechanism by folding card?  PE  Can children think of a stationary movement to represent a dinosaur?  Can children think of a travelling movement to represent a dinosaur?  Can children perform their movements?  Can children move at different levels around the room?  Are children able to link an on-the-spot movement with a travelling movement?  Are children able to link movements on different levels?
