nextant pacific

As well as being the exclusive distributor for Nextant Aerospace aircraft in Asia Pacific, we are the region's only specialist in pre-owned King Air aircraft.

The King Air, built by Beechcraft, is undoubtedly the most popular turboprop aircraft ever built - with over 6,500 aircraft and 37 different models. It is estimated they have collectively flown over 40,000,000 flight hours.

Their popularity stems from the largest cabin in their class, sturdiness and incredible reliability. Pilots laud them for their ease to fly; passengers love them for their comfort. This is an aircraft equally at home on an unsealed regional airfield or collecting VIPs from an FBO in Sydney or Singapore.

Pre-owned King Airs represent outstanding value for money, and Nextant Pacific is without parallel in the region when it comes to sourcing, selling and purchasing these exceptional aircraft.

Please contact us to discuss this aircraft or any of your King Air requirements.
