

ACTION AGREEMENT - NOODLANDING VOOR HET KLIMAAT

This action agreement is a binding framework for the action and aims to highlight our values and principles, and to make the action(s) of *Noodlanding Voor het Klimaat* safe, accessible and transparent for all participants. It serves to make sure that we take care of each other and ourselves during the action(s).

Every participant present at the action(s) shall have read, understood and agreed to this action agreement, prior to participating. Organizing *Noodlanding voor het Klimaat* action(s) is the effort of many people, and we expect that everyone will respect the action agreement while taking part in the action(s).

Reasoning behind the activity

Everywhere around the globe people are taking action for the climate. Young people are going on strike, civilians are taking to the streets and scientists are sounding the alarm. Yet the big polluters ignore the climate crisis. They just carry on pumping out huge amounts of CO₂ into the air, and they are getting away with it. Nowhere is that more apparent than at Schiphol.

Together we are going to put an end to the privileged position of the aviation sector. Schiphol Group is emitting a great deal of CO₂ and not paying for the consequences. In fact, this polluter even wants to expand.

Given the seriousness and urgency of the climate crisis, we consider it necessary and appropriate to go one step further: from public protesting to peaceful acts of mass action.

Principles and values

- **We are determined but peaceful.** We will not use verbal or physical violence towards anybody.
- **During the action we will behave in a positive and calm way.** We will not provoke escalation or react to any provocations in any way. If the situation does escalate, please take care of the safety of yourself and others.
- **We are committed to being an inclusive network.** We condemn any form of discrimination. We actively work towards creating safe, accessible spaces where everyone is welcome. We are committed to respecting the physical, emotional and mental boundaries of our fellow activists or any bystanders.
- **Each individual will join the action as an individual.** You join the action the way it fits your level of action best, you should feel comfortable. Everyone is responsible for their own actions and takes care that his or her activity during the action is in consent with the action agreement.
- **Our action is not directed against Schiphol Group workers, other companies, travelers or the police.** The safety of everyone is our highest priority. We prepare well for a safe access to our action location and during the action.
- **As activists in the Netherlands, we acknowledge our privilege.** We act in solidarity with other anti-aviation action groups outside the Netherlands and recognize that our struggles for climate justice are all connected.
- We will not take action under the influence of **alcohol or drugs** and do not bring weapons.
