Hacker Resources

At HackerOne, we're committed to supporting security researchers with continuous learning and development. We've compiled a list of resources that can help you enhance your web hacking skills and gain valuable insights into the world of cybersecurity.

Web Hacking

- Hacker101 (https://www.hacker101.com): Our platform offering a variety of web hacking lessons for beginners and experienced hackers alike.
- Portswigger Web Academy (https://portswigger.net/web-security): A comprehensive resource to learn about web application security and exploitation techniques.
- Pentesterlab (https://pentesterlab.com): Hands-on exercises and labs to hone your penetration testing skills.
- TryHackMe (https://tryhackme.com): A beginner-friendly platform with guided hacking labs to improve your knowledge.
- Hack The Box (https://www.hackthebox.eu): Test your skills in a realistic lab environment and access a structured learning path.

Pentesting Certifications

- Offensive Security - OSCP (https://www.offensive-security.com): One of the most respected certifications for penetration testing.
- eLearnSecurity - eCCPT (https://elearnsecurity.com): A practical certification focusing on web application penetration testing.
- eLearnSecurity - eWPT (https://elearnsecurity.com): A certification specialized in web application penetration testing.
- TCM Security - PNPT (https://www.tcm-sec.com): A hands-on certification designed to improve your network penetration testing skills.
- EC-Council - CEH (Practical) (https://www.eccouncil.org): The Certified Ethical Hacker certification with a practical component.

Junior Pentesting Certifications

- eLearnSecurity - eJPT (https://elearnsecurity.com): An entry-level certification to prepare you for more advanced courses.
- HackTheBox - CPTS (https://www.hackthebox.eu): A certification based on challenges and labs from the Hack The Box platform.
