Robotic Skills Course (CC-ERUS)

Course Leader: Prof. Dr. Alex Mottrie

Proctors: Orsi experts

Duration: 5 days

Delegates: 6 delegates per session

Course details

Orsi Academy offers a 5-day course in robotic urology for robot-naïve urology fellows, residents and surgeons who want to learn to perform a RARP independently and effectively. The CC-ERUS (Certified Curriculum of ERUS) is the first validated training curriculum in robotic surgery worldwide.

Led by course director Prof. Dr. Alex Mottrie & proctored by Orsi experts.

Certified Curriculum of ERUS: 12-week timeline

Fig.1 - Structure of the European Association of Urology robotic training curriculum

The 5-Days Robotic Skills Course is a fundamental part of the Curriculum. This part provides the fundamental theoretical and practical bases which will then have to be implemented in the following 6 months.

✓ Criteria

- If you are a fellow in one of the ERUS robotic host centers and have been enrolled in the six month CC-ERUS validated training pathway by EAU, this 5-day course is the mandatory kick-off. The registration is done via ERUS/EAU. You can apply for a free spot through EAU (i.grotenbreg@uroweb.org).
- If you are not in one of the ERUS robotic host centers, you can still enroll in this Robotic Skills Course. Thus, it serves as a stand-alone skills course without involvement of ERUS/EAU.

🏆 Certificates

🏆 certificate of attendance
by ORSI and EAU
after 5 days course

🏆 certificate of excellence
by EAU at the end of the
6 months after passing the
video assessment

🏆 certificate of equivalence
from Intuitive for Da Vinci
training pathway

DAY 1 | 08:15-17:00

Basic skills exercises: system overview & simulator training

08:15 - 08:30 | Welcome at Orsi Academy

08:30 - 10:45 | Technical training

10:45 - 11:00 | Coffee break

11:00 - 13:00 | Second part of technical training

13:00 - 13:30 | Lunch

13:30 - 14:00 | Theoretical lectures

- Introduction to proficiency-based progression training
- Presentation of the chicken model

14:00 - 15:30 | Hands-on training

- Virtual simulator
- Chicken model

15:30 - 15:45 | Coffee break

15:45 - 17:00 | Hands-on training

DAY 2 | 08:15-17:00

Live case observations - livestream OLV Hospital Aalst

08:15 - 08:45 | Prostate surgical anatomy for radical prostatectomy

08:45 - 12:30 | Live surgery

12:30 - 13:00 | Lunch

13:00 - 15:00 | Hands-on training

- Virtual simulator
- Chicken model

15:00 - 15:15 | Coffee break

15:15 - 17:00 | Hands-on training

DAY 3 | 08:30-17:00

Full day of hands-on training

08:30 - 08:45 | Presentation

08:45 - 12:30 | Hands-on training on canine model

12:30 - 13:00 | Lunch

13:00 - 17:00 | Hands-on training

DAY 4 | 08:30-17:00

08:30 - 09:15 | Presentations

- Presentation 'Quantify the impact'
- Presentation of the porcine model

09:15 - 12:30 | Hands-on training

- On porcine model

12:30 - 13:00 | Lunch

13:00 - 17:00 | Hands-on training

20:00 | Social dinner in Ghent
for faculty & participants

DAY 5 | 08:45-17:00

08:45 - 12:30 | Hands-on training

- On porcine model

12:30 - 13:00 | Lunch

13:00 - 17:00 | Hands-on training

- On porcine model

17:00 | Final evaluation & certification
