

# MANAGEMENT OF PNEUMONIA IN IMMUNOCOMPROMISED PATIENTS

Online or face-to-face training depending  
on the evolution of the pandemic

[www.hopital-foch.com](http://www.hopital-foch.com)

HOPITAL FOCH  
92150 SURESNES  
FRANCE

## REFERENT OF THE TRAINING

### Pr Louis-Jean COUDERC

Pulmonologist at Foch Hospital,  
Expert in the field of pulmonary  
clinical immunology

**Pr Louis-Jean COUDERC is the author of more than 150 articles referenced in the PubMed database. He is also one of the founders of the Exhalomics platform which associates Foch Hospital, the University of Paris-Saclay and the Atomic Energy Commission.**

## HIS TOPICS ARE MAINLY :

- 1- **Pulmonary complications in immunocompromised patients**, i.e. haematological patients, transplant patients, HIV-infected patients and those with primary immunodeficiency
- 2- **COVID-19 infection**
- 3- **Bronchiectasis and non-tuberculous mycobacterial infections**
- 4- **Pulmonary manifestations of systemic and orphan diseases**

## INTRODUCTION

The number of immunocompromised patients is increasing in Oncology, Haematology, Nephrology, Rheumatology, Internal Medicine, Dermatology, but also in Pneumology due to the development of biotherapies.

**Foch Hospital has designed this master class based on its proven experience in solid organ transplantation, in the management of respiratory complications of haematology patients and in particular marrow transplant recipients, but also patients with primary immune deficiencies and HIV-infected persons.**

As the management of immunocompromised patients requires a multidisciplinary approach, the panel of speakers who will provide this training is extremely varied: **pulmonologists who are hyperspecialists in this field, radiologists, infectious diseases specialists, thoracic surgeons and resuscitators.** Finally, the specific management of these patients in the current context of COVID-19 will be discussed.

## WHAT WILL YOU LEARN?

**Improve knowledge on the management of immunocompromised patients :**

- . **from a multidisciplinary perspective ;**
- . **for the different categories of immunocompromised patients ;**
- . **through the study of clinical cases.**

# PROGRAMME

## DAY 1

8.30 am - 8.45 am	WELCOME
8.45 am - 9.00 am	INTRODUCTION - Louis-Jean Couderc
<b>1- GLOBAL MANAGEMENT</b>	
9.00 am - 10.00 am	Diagnostic approach of a pneumonia in an immunocompromised patient - Louis-Jean Couderc
10.00 am - 11.00 am	Microbiological tests in practice - Eric Farfour
11.00 am - 11.15 am	BREAK
11.15 am - 12.15 pm	Usefulness of radiologists - François Mellot
12.15 pm - 1.15 pm	Thoracic Surgery in immunocompromised patients - Matthieu Glorion
1.15 pm - 2.00 pm	LUNCH
<b>2- INFECTIOUS PNEUMONIA MANAGEMENT</b>	
2.00 pm - 3.00 pm	Cytomegalovirus infection in transplant recipients Antoine Roux
3.00 pm - 4.00 pm	Invasive pulmonary fungal infections in solid organ transplant recipients - François Parquin
4.00 pm - 4.15 pm	BREAK
4.15 pm - 5.15 pm	Pneumocystis jirovecii pneumonia in patients without AIDS - Emilie Catherinot
5.15 pm - 6.15 pm	COVID 19 in immunocompromised patients Colas Tcherakian

## DAY 2

8.30 am - 8.45 am	MORNING COFFEE
<b>3- PNEUMONIA IN SPECIFIC GROUPS OF IMMUNOCOMPROMISED PATIENTS</b>	
8.45 am - 9.30 am	Pulmonary manifestations of primary immune deficiencies in adults - H�el�ene Salvator
9.30 am - 10.15 am	Non-infectious respiratory manifestations in haematopoietic stem-cell transplant recipients Louis-Jean Couderc
10.15 am - 10.30 am	BREAK
10.30 am - 11.15 am	Pulmonary complications of antitumoral immunotherapies in cancer patients Perinne Crequit
11.15 am - 12.15 pm	Update of pulmonary complications in persons living with HIV - David Zucman
12.15 pm - 1.00 pm	LUNCH
<b>4- CLINICAL CASES AND PANEL DISCUSSION</b>	
2.00 pm - 4.00 pm	4 cases Alexandre Chabrol and others
4.00 pm - 4.15 pm	CONCLUSIONS - Louis-Jean Couderc

**THIS COURSE IS INTENDED FOR:  
PULMONOLOGISTS, INTERNISTS, ONCOLOGISTS,  
HAEMATOLOGISTS, RESUSCITATORS**

**PRICE PER PARTICIPANT: 1500 **

## ABOUT FOCH HOSPITAL

**With 2,000 staff (including 300 doctors) and 600 beds, Foch Hospital is one of the most successful and renowned non-profit teaching hospitals with a public service mission in France.**

Foch Hospital offers a wide range of treatments to adult patients in almost all medical and surgical fields and is committed to education and research, while giving crucial attention to patient care, including investment in state-of-the-art medical technology.

Foch Hospital stands out from the French medical offer by being a leader in the field of neurosurgery, thoracic surgery, gynaecology, urology, anaesthesia, intensive care, internal medicine and oncology thanks to innovative treatments.

### **Training at Foch Hospital is covered by :**

- 50% of the heads of department at Foch Hospital who are also university professors
- 1 nursing school with 60 students per class
- 1 midwifery school with 28 students per class
- 1 institute for medical continuing education, "Foch Santé Formation"
- 1 medical simulation platform of 600 m2
