

9th International Workshop TF-TAVI – Minimalist Approach

June 8th -10th, 2021

Course Directors: Alain Cribier, MD; Helene Eltchaninoff, MD

Department of Cardiology, Charles Nicolle University Hospital, Rouen, France

Rouen Medical Training Center

19 years after the First-in-Man TAVI case performed by our team in Rouen on April 2002, the procedure is incredibly expanding. Significant technological advances and simplified strategies led to an explosion of TAVI with about 1 000 000 cases performed to date in the world.

Our team has been pioneering since 2012 the simplified “transfemoral minimalist approach” which then became the default strategy for TAVI, able to be applied in > 90% of all cases. To address the demand of many colleagues wishing to assess with us the feasibility and safety of this simplified strategy, we have started a series of interactive workshops based on live video-transmission of « minimalist transfemoral-TAVI cases » with various TAVI valves.

Due to COVID pandemic the next workshop of June 2021 will be virtual

Live cases will be transmitted from the Department of Cardiology of Rouen University Hospital Charles Nicolle and from other European Institutions. In between, several lectures will be covering the topics of patients selection, CT Scan screening, tips and tricks for the transfemoral minimalist approach, difficult cases, valve-in valve procedures, and management of complications

Live cases operators

| | |
|-----------------------------------|---|
| <i>Rouen:</i> | Drs Alain Cribier, Helene Eltchaninoff, Eric Durand, Christophe Tron, Najime Bouhzam, Nicolas Bettinger |
| <i>Ljubljana, Slovenia</i> | Dr Matjaz Bunc, University Medical Center |
| <i>Vilnius, Lithuania</i> | Dr Sigitas Cesna, Vilnius University Hospital Santaros Clinics |
| <i>Toulouse, France:</i> | Drs Nicolas Dumonteil and Dider Tchetché, Clinique Pasteur |

Invited Speakers

| | |
|---------------------------------|--|
| <i>Rouen,</i> | Dr Jean-Nicolas Dacher, Head of the Department of Radiology |
| <i>Gdansk, Poland</i> | Dr Darius Jagielak, Medical University of Gdansk |
| <i>Toulouse, France:</i> | Dr. Nicolas Dumonteil, Interventional Cardiologist, Clinique Pasteur |

Program at a glance

Tuesday June 8th:

14:00-18:30

➤ **3 live-cases: 2 SAPIEN 3, 1 MYVAL**

➤ **Lectures:**

1 - Pr Alain Cribier: *The road to Minimalist TAVI with the Edwards balloon expandable valves: State of the Art and “Tips and Tricks”*

2 - Pr Dariusz Jagielak: *Myval science, clinical Updates and real world experience from Gdansk, Poland*

3 - Pr Eric Durand: *Valve-In-Valve Cases*

Wednesday June 9th:

14:30- 17:30

➤ **3 live-cases: 2 Medtronic Evolut, 1 SAPIEN 3**

➤ **Lecture:**

- **Dr Nicolas Dumonteil:** *Medtronic CoreValve Evolut Pro Last Update*

Thursday June 10th:

15:00- 18:30

➤ **2 live-cases: 1 MYVAL, 1 Medtronic Evolut**

➤ **Lectures:**

- **1 - Pr Jean-Nicolas Dacher:**

Ability of CT to address all relevant aspects of TAVI

- **2 - Pr Helene Eltchaninoff:** *Management of TAVI complications*

Program

Tuesday, June 8th: 14:00 – 18:30

- **14:00 - LECTURE:** « The road to Minimalist TF-TAVI with the Edwards balloon expandable valves: State of the Art, Tips and Tricks » *Pr Alain Cribier*
- 14:40 - Interaction with audience: Q&A session
 - **14:45 Live-Case 1, from Rouen : SAPIEN 3**
- 15:25 - Interaction with audience: Q&A session
- **15:30 - LECTURE :** Myval Science, clinical updates and real world experience from Gdansk, Poland *Pr Dariusz Jagielak*
- 16:10 - Interaction with audience: Q&A session
 - **16:15 Live Case 2, from Ljubljana, Slovenia: MYVAL THV***Pr Matjaz Bunc*
- 16:50 - Interaction with audience: Q&A session
 - **17:00 Live-Case 3, from Rouen: SAPIEN 3**
+ Use of TRIGUARD protection device
- 17:40 - Interaction with audience: Q&A session
- **17:45 - LECTURE :** « Valve-in-Valve cases » *Pr Eric Durand*
- 18:15 – 18:30 - Interaction with audience: Q&A session and closing

Wednesday, June 9th: 14:30 – 17:30

- **14:30 - LECTURE:** « Medtronic CoreValve Evolut Pro, Last Update » *Dr Nicolas Dumonteil, Toulouse*
- 15:10 - Interaction with audience: Q&A session
 - **15:15 Live-Case 4, from Toulouse, France: MEDTRONIC EVOLUT**
Dr Nicolas Dumonteil, Dr Didier Tchetché
- 15:50 - Interaction with audience: Q&A session
 - **16:00 Live Case 5, from Rouen: SAPIEN 3**
- 16:40 - Interaction with audience: Q&A session
 - **16:45 Live-Case 6, from Toulouse, France: MEDTRONIC EVOLUT**
Dr Nicolas Dumonteil, Dr Didier Tchetché
- 17:20- 17:30 Interaction with audience: Q&A session and closing

Thursday, June 10th: 15:00 – 18:30

- **15:00 - LECTURE : « Ability of CT to address all relevant aspects of TAVI »**

Pr Jean-Nicolas Dacher

15:40- *Interaction with audience: Q&A session*

- **15:45 Live-Case 7, from Vilnius, Lithuania: MYVAL THV**

Pr Sigitas Cesna

16:30- *Interaction with audience: Q&A session*

- **16:40 - LECTURE : « Complications and complex cases »**

Pr Hélène Eltchaninoff

17:15 - *Interaction with audience: Q&A session*

- **17:45 Live-Case 8, from Rouen: MEDTRONIC EVOLUT**

18:20 -18:30 - *Interaction with audience and Closing*
