

# 11th International Workshop TF-TAVI – Minimalist Approach

*October 5 -7th, 2022*

**Course Directors: Alain Cribier, MD; Helene Eltchaninoff, MD**

*Department of Cardiology, Charles Nicolle University Hospital, Rouen, France*

*Rouen Medical Training Center*

20 years after the First-in-Man TAVI performed by our team in Rouen on April 2002, the procedure is incredibly expanding. Significant technological advances, simplified strategies and scientific evidences led to an explosion of TAVI with more than 1 500 000 cases performed to date in the world.

Since 2002, in Rouen, *transfemoral TAVI* has been performed in 100% of cases using a simplified approach under local anesthesia. Over the last 12 years, this strategy has reached its peak with the “*minimalist approach*” (local anesthesia, no TEE, percutaneous closure devices and early patient discharge home) that our team has been pioneering. Despite strong initial reluctance, this technique is now adopted everywhere and can be performed in > 90% of all TAVI cases. To be carried out safely and with optimal results, many tips and tricks must be learned. This is the goal of our workshops based on lectures and video-transmission of live cases from several centers using the minimalist strategy with different types of TAVI valves.

For the 11<sup>st</sup> edition of the workshop, live cases will be transmitted from our Department of Cardiology in Rouen, and from other institutions in France (Toulouse), Argentina (Buenos-Aires) and Brazil (Curitiba). Several lectures will be covering the topics of patients selection and management, CT Scan screening, tips and tricks for the transfemoral minimalist approach, difficult cases, valve-in valve procedures, treatment of complications and overviews of TAVI valve technologies.

*This workshop will be again virtual*

## INFORMATION / REGISTRATION

# 11th International TF-TAVI Workshop, Rouen, France

## *Live cases operators and invited speakers*

- Alain Cribier, Helene Eltchaninoff, Eric Durand, Christophe Tron, Najime Bouzham, Nicolas Bettinger, *Charles Nicolle University Hospital, Rouen, France*
- Jean-Nicolas Dacher, Head of the Department of Radiology, *Charles Nicolle Hospital, Rouen, France*
- Nicolas Dumonteil and Didier Tchétché, *Clinique Pasteur, Toulouse France*
- Deborah Nercolini, *Pilar Hospital, Curitiba, Brazil*
- Carla Agatiello, *Hospital Italiano, Buenos-Aires, Argentina*
- Mathjas Bunc, *University Medical Center, Ljubljana, Slovenia*

## Preliminary program

**Wednesday 5th: 14:00 – 18:00**

- **14:00 - Pr Alain Cribier, Rouen :**  
« The road to Minimalist TF-TAVI with the Edwards balloon expandable valves: State of the Art, Tips and Tricks »
- **15:00 Live-Case 1, from Rouen: SAPIEN 3 (Edwards)**
- **15:45 Live Case 2, from Toulouse: MEDTRONIC EVOLUT**  
*Dr Didier Tchétché, Dr Nicolas Dumonteil*
- **16:15 - Dr Nicolas Dumonteil, Toulouse:**  
« Medtronic CoreValve Evolut Pro, Last Update »
- **16:45 Live-Case 3, from Toulouse: MEDTRONIC EVOLUT**
- **18:00 - Q&A and closing**

## Thursday 6th: 10:00 – 16:00

- 10:00 - *Pr Jean-Nicolas Dacher:*  
« Ability of CT to address all relevant aspects of TAVI »
- 10:45 Live Case 5, from Rouen: SAPIEN 3 (Edwards)
- 11:30 - *Pr Helene Eltchaninoff:*  
« TAVI complications and complex cases »
- 12:15 Live Case 6, from Rouen: MEDTRONIC EVOLUT
- 13:00 - *Pr Mathias Bunc, Ljubliana, Slovenia:*  
« The Meril MYVAL device: Global Clinical Update »
- 13:45 Live-Case 7, from Buenos Aires: MYVAL (Meril)  
*Dr Carla Agatiello*
- 14:30 - *Carla Agatiello: recorded case from Buenos Aires*  
« Shockwave to facilitate ACURATE NEO 2 valve implantation »  
(Shockwave & Boston Scientific)
- 15:15 Live Case 8, from Rouen: SAPIEN 3 (Edwards)
- 16:00 - *Q&A and closing*

## Friday 7th: 14:00–17:00

- **14:00 Live-Case 9, from Rouen: SAPIEN 3 (Edwards)**
- **14:45 - Pr Eric Durand:**  
    « Which strategy for early discharge? »
- **15:00 - Dr Deborah Nercolini**  
    « TAVI in Brazil: Where are we in 2022? »
- **15:30 Live Case 10, from Curitiba, Brazil: MYVAL (Meril)**  
    **Dr Deborah Nercolini**
- **16:15 Live Case 11, from Rouen: SAPIEN 3 (Edwards)**
- **17:00 - General conclusion & closing**

## Preliminary program at a glance

### ▪ **Wednesday 5th: 14:00 – 18:00**

14:00- Pr A. Cribier (Rouen): The road to minimalist TF-TAVI

15:00- LIVE CASE 1 from *Rouen* - *SAPIEN 3 (Edwards)*

15:45- LIVE CASE 2 from *Toulouse* - *MEDTRONIC EVOLUT (Medtronic)*

16:15- Dr N. Dumonteil (Toulouse): Medtronic valve update

16:45- LIVE CASE 3 from *Toulouse* – *MEDTRONIC EVOLUT (Medtronic)*

**18:00- Q&R & Closing**

### ▪ **Thursday 6th: 10:00 – 16:00**

10:00- Pr JN.Dacher (Rouen): Ability of CT to address all relevant aspects of TAVI

10:45- LIVE CASE 5 from *Rouen* - *SAPIEN 3 (Edwards)*

11:30- Pr H. Eltchaninoff (Rouen): TAVI complications and complex cases

12:15- LIVE CASE 6 from *Rouen* - *MEDTRONIC EVOLUT (Medtronic)*

13:00- Pr M. Bunc, (Ljubljana), Slovenia: Myval Global Clinical Update

13:45- LIVE CASE 7 from *Buenos Aires, Argentina* – *MYVAL (Meril)*

14:30- Dr C. Agatiello Buenos-Aires, Argentina): recorded case: Shockwave facilitating ACURATE NEO 2 implantation (*Shockwave & Boston-Scientific*)

15:15- LIVE CASE 8 from *Rouen* - *SAPIEN 3 (Edwards)*

**16:00 Q&R & Closing**

### ▪ **Friday 17th: 14:00 – 17:00**

14:00- LIVE CASE 9 from *Rouen* - *SAPIEN 3 (Edwards)*

14:45- Pr E. Durand (Rouen): Which strategy for early discharge?

15:00- Dr D. Nercolini (Curitiba, Brazil): TAVI in Brazil, Where are we in 2022?

15:30- LIVE CASE 10 from Curitiba, Brazil - *MYVAL (Meril)*

16:15- LIVE CASE 11 from *Rouen* - *SAPIEN 3 (Edwards)*

**17:00 – Q&R, General conclusions & Closing**
