

		<b>No. of length- modified sequences <sup>1)</sup></b>			<b>Sum</b>
		<b>1</b>	<b>2</b>	<b>3</b>	
<b>No. of larvae</b>	<b>Without wt allele (%)</b>	10 (26%)	20 (51%)	1 (3%)	31 (79%)
	<b>With wt allele (%)</b>	8 (21%)	0 (0%)	0 (0%)	8 (21%)

1) Determined by comparing the sequence length of the treated larvae with a sample of 7 non-treated (wild-type, (wt)) larvae.
