1C SKP1 Blot. (note that lanes 3-4 were samples not shown in the published figure)

1C Comassie Stain Blot. (note that lanes 3-4 were samples not shown in the published figure)
7A SKP1 Blot. (note that lanes 1-4 were samples shown in the published figure. Lanes 4-8 were the IP samples but no Skp1 signal detected since SKP1 and PHYa cannot be detected in an IP complex.

7A SAG1 Blot. (note that duplicate samples of lanes 1-4 from the above gel were run on this gel)

7A HA Blot. (note that lanes 1-4 were samples shown WCL lanes and 4-8 were samples for the IP blot.)
S3B DNA Gels
