

## Correction: Addressing the Global Neglect of Childhood Hearing Impairment in Developing Countries

Bolajoko O. Olusanya

In *PLoS Medicine*, volume 4, issue 4, doi:10.1371/journal.pmed.0040074:

The author inadvertently omitted the following citation that addresses the same topic (at the time of publication of the *PLoS Medicine* article, the article in *The Lancet* was still in press):

Olusanya BO, Newton VE (2007) Global burden of childhood hearing impairment and disease control priorities for developing countries. *Lancet* 369: 1314–1317.

The author did, however, cite this *Lancet* paper, as reference [10], in an earlier Correspondence article published in *PLoS Medicine*: Olusanya BO (2007) "The Right Stuff": The Global Burden of Disease. *PLoS Med* 4(2): e84. doi:10.1371/journal.pmed.0040084

This correction note may be found online at doi:10.1371/journal.pmed.0040203.

## Correction: Prevalence and Causes of Blindness and Low Vision in Southern Sudan

Jeremiah Ngondi, Francis Ole-Sempele, Alice Onsarigo, Ibrahim Matende, Samson Baba, Mark Reacher, Fiona Matthews, Carol Brayne, Paul M. Emerson

In *PLoS Medicine*, volume 3, issue 12, doi:10.1371/journal.pmed.0030477:

In the Methods and Findings section of the Abstract, the figures 18/60 in the following sentence are incorrect and should read 6/18 to be consistent with what is in the main text of the article:

"Prevalence of blindness (presenting VA of less than 3/60 in the better eye) was 4.1% (95% confidence interval [CI], 3.4–4.8); prevalence of low vision (presenting VA of at least 3/60 but less than 18/60 in the better eye) was 7.7% (95% CI, 6.7–8.7); whereas prevalence of monocular visual impairment (presenting VA of at least 18/60 in better eye and VA of less than 18/60 in other eye) was 4.4% (95% CI, 3.6–5.3)."

Please note that this error does not change the data or the conclusions in the paper. It is an error in the abstract only.
