5.1x10^5 colonies on leucine-containing growth plates

Transform with HEK293 cDNA library

- Collect and pool
- Seed 3.6x10^6 cells on leucine-deficient selection plates
- 42 blue colonies

True positive: 6 (full-length Caspase-4: #ZB311)
False positive: 36

2.1x10^6 colonies on leucine-containing growth plates

Transform with human placental cDNA library

- Collect and pool
- Seed 2.1x10^7 cells on leucine-deficient selection plates
- 10 blue colonies

True positive: 5 (partial Caspase-1: #XE501)
False positive: 5
